

# LED Exterior Wall Lamp

**EW7512**  
INSTALLATION SHEET

## START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

### Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the canopy (1f) by removing the two nuts (2a). Pull out the mounting plate (1c) from within the canopy (1f) and attach it to the electrical junction box (1a), using the two screws (1e) provided in the hardware package.
2. Attach all wiring with the provided marrets (1b) (white to white "N", black to black "L", ground to ground "G"). Align the canopy (1f) to the back plate (1c) and screw in the two nuts (2a) provided to secure the canopy (1f) to the back plate (1c).
3. Next, secure the fixture (2d) to the canopy (1f) using the four set screws (2c) using the provided Allen Key.
4. You have now completed the installation of your fixture, do enjoy.
