Install the Lamp

NOTE: To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture.

Use **MAX 50 Watt MR16 Front Cover** Halogen Lamp.

I Push the lamp pins completely into the socket holes.

SAVE THESE INSTRUCTIONS!

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electrical shock, exposure to excessive UV radiation, or injury to person:

- Use this fixture indoors only.
- Do not look directly at the lighted lamp.
- Do not remain in light if skin feels warm.
- Risk of fire: Use only the type of lamp and maximum wattage indicated in this instruction manual.
- Never cover the halogen lamp with anything other than a Tech Lighting lamp shield and never place flammable material close to your fixture.
- Do not touch the fixture shades or lamp shield while the fixture is on. These surfaces may be HOT.
- To avoid glare in child's eyes, hang the fixture at least 18" above a table.

Halogen Lamp General Information

- It is normal for a new halogen lamp to smoke slightly on first use. The protective coating is being vaporized.

Prolonging Halogen Lamp Life

- Do not touch the lamp with bare hands. Any contaminant, even the oil from your hands can deteriorate the lamp. Handle the lamp with a soft, clean cloth. Rubbing alcohol can be used to remove any contaminant from the lamp.
- Do not run the lamps at full power when you do not need to. However, if dimming the fixture for an extended period of time, occasionally bring the light up to full brightness for a few minutes to complete the halogen cycle.
