

OALS10 LED Area Light

Dusk-to-Dawn Illumination

Experience bright illumination for enhanced security around parking areas, walkways, yards, barns and driveways with the OALS10 LED Area Light. Say goodbye to manually switching lights on and off with the built-in photocell that automatically activates the light at dusk and turns it off at dawn saving you both time and energy.

Designed with a rugged, weather and rust-resistant die-cast aluminum housing, OALS10 LED is built to withstand harsh conditions ensuring both durability and consistent performance. Choose between a convenient wall mount with the included flange or a pole mount with an optional mounting arm (sold separately).

The OALS10 LED is an ideal solution for energy-efficient and convenient lighting for many outdoor spaces!
