General Purpose

# LED OPEN SIGN

## Utility

### FEATURES & SPECIFICATIONS

#### INTENDED USE

An energy efficient alternative to neon open signs. Ideal for use in storefront windows.

#### ATTRIBUTES

This lightweight, easy-to-install fixture is highly visible from any store window both day and night. Eye-catching red and blue lights draw attention in static or chasing/blinking mode with speed control and on/off rocker switch.

LED technology provides uniform, even illumination on just 10 watts-up to 10 times less power than neon-resulting in considerable money savings in energy consumption. With a lamp life of approximately 80,000 hours, enjoy over 10 years of maintenance-free operation. Cool and safe to touch, the 3lb slimline case comes with its own hanging mounting hardware. (2) 31" lengths of chain and hooks included.

Plugs into any 120 volt outlet. 6' power cord included.

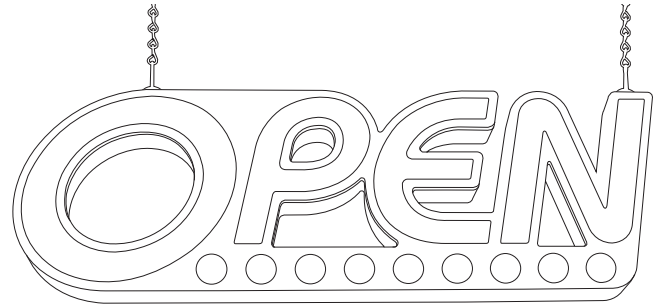

Class 2 transformer.

#### LISTING

CUL listed to US and Canadian safety standards.

#### WARRANTY

Guaranteed for one year against mechanical defects in manufacture.
