

Create the perfect light with the dimmer that features a delayed off.

Abella dimmers

- press the on/off button until the LED flashes (about a second) and then release; the Abella dimmer provides 30 seconds to cross a room before lights fade to off
- companion dimmers available for multi-location dimming
- buttons feature a sleek, curved design that is comfortable to the user
- lights fade on/off, or to a preset level
- position of LED in button indicates light level at a glance
- button glows softly – easily find the dimmer in the dark

Abella switches

- press button to turn lights on/off
- LED stripe glows softly – easily find the switch in the dark
- companion switches available for multi-location switching
