Pioneers in our industry

“Innovation distinguishes between a leader and a follower.” - Steve Jobs

Maplevilles was developed with the concept of innovation in mind. Over the last decade our brand has been a staple for specialty cabinets. Originally, Maplevilles started with the concept of developing and stocking unique cabinet sizes which were not offered in the industry. Inspired by innovation and the love of fine cabinetry Maplevilles developed a premium line of RTA Inset Cabinets. Our Inset line is made of 5/8 premium plywood boxes. The frames, drawers, and doors are made from quality birch wood which makes our cabinetry not only appealing but also durable.

Inset cabinetry

Inset cabinetry is unique in its own way. While maintaining the traditional look of shaker style cabinets, its doors and drawers fit inside the frame. This feature makes the cabinetry flush with seamless clean lines which can change the entire look of your kitchen.

Simple Convenience

Maplevilles separates itself from the competition. Not only do we offer a full range of inset cabinet lines but also because our cabinetry is RTA and in stock. We are based in California, but we ship nationwide and have developed a convenient shipping program that allows our cabinetry to be accessible anywhere in the 50 states! We take pride in offering you a custom cabinetry line in a fraction of the time.

Environmentally Safe

Maplevilles cabinetry is TSCA Title VI compliant which means that our products have met the requirements to meet the EPA's final rule to reduce exposure to formaldehyde emissions from certain wood products produced domestically or imported into the United States. In an effort to be environmentally cautious, Maplevilles has also stopped printing out paper assembly instructions for each cabinet. Our assembly instructions are now available to download on our website for your convenience along with helpful assembly videos.
