Basic 12V 196"

The most economical way to illuminate with LED, StarStrand Basic Star, a low-voltage 12 volt system, comes on a convenient 196 inch reel and can be easily cut every 2 inches as needed. A soldered power connector on the end of each reel, two additional power feeds, and a splicer for joining sections together round out the standard model, and additional power feeds and splicers are available. The maximum run for Basic Star is 33 feet, and lumen output is 168 lumens per foot. The copper PC board is backed with an adhesive 3M tape for easy installation. Optional dimming includes dimming from a wall or using a remote control. Applications for Basic Star include cove and toe kick accent lighting, cabinet lighting, architectural features, point of purchase displays, backlighting and displays, wine cellars and closets.
