Miele's EcoFlex
Dishwashers

Miele. For everything
you really love.

Immer Besser
(forever better)

Our Pledge —

When our two great-grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be “better” than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being “Immer Besser” throughout the past 118 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbors. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent — and save you money at the same time.

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Celebrating 30 Years of Miele's Cutlery Tray

Miele originated the cutlery tray in 1987 and was awarded patents for this development lasting 20 years. Now, with the patented 3D+ cutlery tray, Miele continues to set the standard for innovation, design, and performance.

Miele's cutlery tray offers numerous benefits:

- a dedicated, full spray arm for superb cleaning results
- increased lower basket capacity
- easy and hygienic loading and unloading

The 3D+ cutlery tray has increased flexibility which allows for tall stemware in the upper basket. No other brand but Miele can offer the innovation of the unique 3D+ cutlery tray. It offers more loading capacity, better cleaning results, and enhanced flexibility.

Integration Options

Choose the right model for you and your home. Miele offers the ultimate in convenience and seamless design integration.

Pre-Finished Models

Pre-finished models are complete with control and door panel. Generally, these models are available in black, white, or Clean Touch Steel™.

Integrated (“i”) Models

Integrated dishwashers have a visible control panel and are designed to fit with a custom door panel that reflects the cabinetry decor of your kitchen.

Fully Integrated (“Vi”) Models

These units can either disappear into your cabinetry by adding a custom front panel or stand out as a robust appliance with a full Clean Touch Steel™ panel. The elegant stainless steel control panel is integrated on top of the door and is only visible when the door is ajar.

Fully Integrated (“SF”) Models

For convenience, Miele offers fully integrated, pre-finished models that are already equipped with a Clean Touch Steel™ door panel, a 4-inch toe-kick and straight door handle.

Highlights

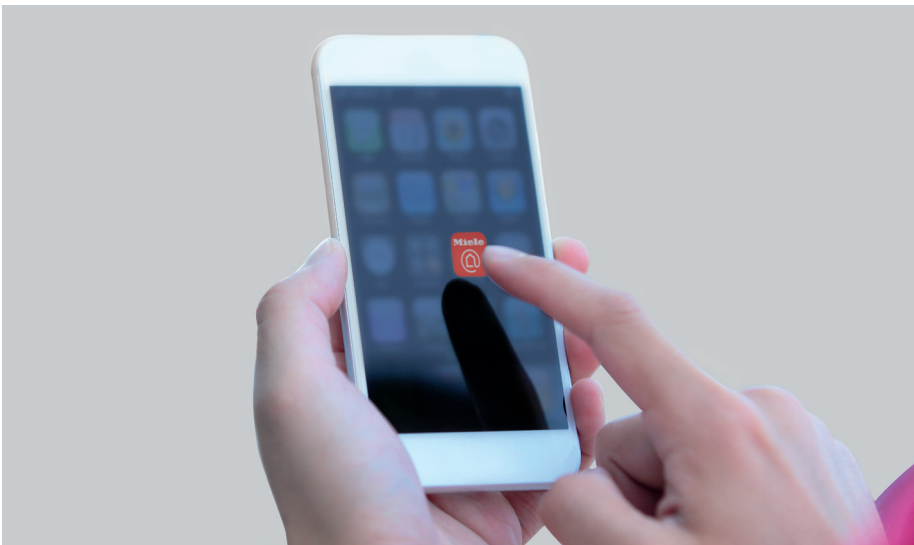

QuickIntenseWash*

So easy, so fast.

The new QuickIntenseWash program solves the problem of quick cleaning that actually performs. Top cleaning performance: best cleaning and drying results on normally soiled dishes in 58 minutes.**

**Program duration with hot water connection.

Miele@Mobile*

Keep everything under control.

With the Miele@Mobile app on your phone or tablet, you can monitor your dishwasher's progress from anywhere.

*Available on select models

Perfect GlassCare*

Miele's intelligent Perfect GlassCare system constantly monitors the rinse water's mineral content, while other sensors check temperature, cycle intensity and even air flow — ensuring optimal performance and consistent results with each use.

Miele is the only dishwasher recommended by legendary stemware company Riedel. Handled properly, Riedel glasses can last up to 1,500 washing cycles or an average of 20 years.

*Available on Crystal, Dimension, Lumen, and Diamond models
