

Suggested opening size of the hole in the countertop for proper sink installation should be 5 inches.

NOTE: FAUCET AND WATER SUPPLY ARE NOT INCLUDED

Our ceramic sinks are crafted from the highest quality materials which make them extremely durable and resistant to corrosion. However, despite the durability and strength of our sinks, they may still be damaged if proper measures are not taken in their care and maintenance.

In order to prolong the life of your ceramic sink, simple daily maintenance is the key to keep your ceramic sink in its original condition. We suggest cleaning your sink after each use with a soapy sponge then rinsing thoroughly with warm water. You may dry it with a towel or a dry cloth. This will eliminate water spots and streaks while the sink is in use.

Do not be alarmed in case you begin to notice stains on your sink. They are most often caused by various minerals contained in your water supply. These mineral deposits settle in the surface of the sink and may cause the surface to stain. In order to eliminate stain spots, use a non-abrasive or mild-abrasive cleaner as mentioned earlier. Remember not to apply force while cleaning your ceramic sink. Do not scrub the sink, as you may scratch the surface. When finished, rinse thoroughly with warm water and dry with a towel or a soft cloth. At Miseno, your satisfaction with the quality and durability of our products is extremely important to us. Therefore, we hope that you try to avoid prolonged sink contact with products containing high concentrations of acids, dishwashing detergents, or bleaches containing chlorine. These products may stain the surface of the sink. Rinse thoroughly if these products do come in contact with the sink surface and dry it with a towel or soft cloth.

PLEASE NOTE: Miseno utilizes the highest manufacturing standards in all of our products. However, slight variations in size and shape on select Ceramic Vessel Sinks may occur from time to time. We recommend not cutting any surfaces based on the sizes and dimensions provided until the product is received. Miseno shall not be held accountable for any custom installation issues. Under no circumstances will Miseno be held liable for the cost of the repair or replacement of installation materials including, but NOT limited to, marble, stone, granite countertops, tiles, etc. Deviations from recommended installations, misuse, neglect, abuse, modifications or alterations may void your warranty. We advise that you comply with your local building codes as they may vary from state to state.

Ceramic Sink & Faucet Combination

About Miseno

On the shores of western Italy, Capo Miseno marks the northernmost point of the Gulf of Naples. Here, the fine, sandy beaches of the Italian peninsula meet the deep blue waters of the Mediterranean Sea, and ancient civilization meets the modern world.

However, Miseno is more than a place, it's a feeling. It's the idea that fine living can be balanced with practicality, and this feeling is what we have captured in the Miseno brand of products.

We at Miseno also recognize that in today's economy, the value proposition has changed. What's old has become new again, and repurposed materials have become decorator chic. Why buy a vase, when a Mason jar will do?

Miseno, by Build.com, strives to offer our customers the highest-quality products, without the high price tag of popular name brands. When we created the Miseno brand, this new value proposition was forefront in our minds, and we feel that we've achieved our goal of offering exceptional quality products at an exceptional value.

We are so confident in the quality of our products, that all Miseno Sinks and Faucets carry a Limited Lifetime Warranty. You can rest assured that we have spent countless hours testing and evaluating our products, to ensure they will serve you well for years to come. Balancing fine living with practicality, that's the Miseno way.

This is only the beginning.
Miseno. Take Me Home.

Thank You

Dear Valued Customer,
Miseno would like to take this opportunity to thank you for this purchase. It is our sincere hope that you are completely satisfied with your new product. We welcome any questions or comments that you may have and look forward to assisting you with your accessory needs in the future.

Sincerely,
Miseno customer service department.

Prior To Installation Steps

1. Unpack your new product and ensure that all the parts are contained in the packaging.
2. Keep the product in its original box until you ready to install it.
3. The counter top must be flat.
4. Shut off the water supply if replacing a previously-installed vessel sink.
5. Observe all plumbing and building codes in your area.
6. It is recommended that installation of the product be done by a professional plumber.
