Skyla

WS600620

PRODUCT DESCRIPTION

Sculptural Light. Statement Presence. The Skyla Wall Sconce captures the eye and commands the room. A dramatic opal glass globe forms a dynamic vertical sculpture that brings movement, depth, and dimension to any space. The result is LED lighting that transcends function — an architectural centerpiece that shapes the environment around it. Ideal for bedrooms, hallways and powder rooms, Skyla's diffused, ambient glow and compatibility with WAC Home system for Tunable White and Dim-to-Warm lighting creates atmosphere while its sculptural form anchors the design. The refined detailing and balanced proportions ensure that this wall sconce remains timeless, even as it pushes the boundaries of contemporary style. Skyla is more than a fixture — it's a vision of modern lighting as art, designed to transform how we experience space, mood, and light.
