

HOMESTEAD TRAILS

HARDWOOD

Mohawk's Homestead Trails offers the premium visual of solid hickory in coveted longer, wider formats. From the milling of the hardwood logs to the specialized staining process, everything about Homestead Trails celebrates the wood's inherent beauty.

Homestead Trails features a new soft-scrape and has been milled to reveal more of the species' natural and distinctive character as often found in fine Craftsman furniture. The ultra-low-gloss TruFinish™ with EasyCare™ hides scuffs and prevents day-to-day grit and grime from building up for easy maintenance.

Homestead Trail's soft and highly desirable hues are achieved with our Natural Alchemy, a process which reacts with the hardwood's natural tannins to produce wildly varying colors. This process highlights the wood's own characteristics, so no two boards look the same. Made in America, the 7" planks come up to 7' long, built with our patented Enhanced Engineered Construction™ and backed by a 50-year finish warranty.
