

# VINTAGE INSPIRED

## HARDWOOD

Fall in love with our newest luxurious, high-end hardwood collection made right here in the United States: Mohawk's Vintage Inspired Collection, a dazzling family of wire-brushed and cerused oak species, captures old world opulence and classic charm for the modern setting. The high-fashion color palette offers six alluring shades—Sumatra Oak, White Sand Oak, Winter Oak, Lighthouse Oak, Armor Oak, Colonial Gray Oak—each perfectly suited for adding depth and dimension to any room. Wire brushing pulls the soft grain out, leaving the heart wood exposed to the surface and revealing every grain line without affecting the overall color of the beautiful finish. The visual contrast between the wood and grain is both timeless and striking, a perfect pairing with the chic surfaces of today's furniture and cabinetry. The Vintage Inspired Collection features 7" width, 1/2" thickness and random length variation, with the longest plank being 6'. With longer, wider plank lengths that allow you to create flowing, visual continuity, these hardwoods help to make rooms appear grander and more sophisticated. To truly complete the authentic naturalistic look, the ultra-low gloss finish of Vintage Inspired hardwood lets every unique characteristic such as knot holes and mineral streaks shine through. Whereas traditional oil finishes can give an unnatural-looking sheen to hardwood and require frequent and expensive maintenance, this collection's ultra-low matte finish featuring TruFinish™ means your stunning surface will remain gorgeous for decades without dulling.
