

Linear Steamhead

104216, 104217, 104218

- Quiet, even distribution of steam
- No field assembly required
- No moving parts
- Minimal profile

Installing the Linear Steamhead

STEAMHEAD INSTALLATION (3/4" NPT)

**IMPORTANT:** Do not disassemble steamhead. Mr.Steam's steam head is shipped fully assembled and requires no additional assembly.

**CAUTION** Because the steamhead and direct steam emissions are very hot, locate the steamhead where incidental contact by bather with the steamhead or direct steam emission cannot occur.

Locate steamhead 6-12 inches above floor, except for tub/shower enclosures; install 6 inches above tub top edge.

**CAUTION** Consult local building codes when installing 104217 and 104218. Codes may require the use of headers, jack studs, king studs and/or cripple studs.

**FOR ILLUSTRATIVE PURPOSES ONLY. IMPORTANT NOTE: FOR SAFE AND TROUBLE FREE INSTALLATION** visit [mrsteam.com](http://mrsteam.com) or scan the QR code before installation to download the Installation, Operation and Maintenance Manual or refer to the manual provided with the unit.
