This tub is very small and is intended for applications where space is extremely limited.

Numbered areas on tub deck represent possible locations to install cleaning systems, faucets and other fixtures. Pump extends 6"-7" beyond edge of tub.
Shown with Air Massage and Standard Whirlpool Package.

IMPORTANT:

Air baths and tubs with a pre-leveled foam base or frame system add 2-3" to overall tub height.

IMPORTANT ORDERING & INSTALLATION INFORMATION

- Before ordering or installing, please consider future access to equipment.
- Add proper bedding compound to fully level and support bottom of tub.
- When equipped with an air bath package, pre-leveled foam base or frame system, overall tub height is increased by approx. 2-3" and is designed to install on a flat, level subfloor.
- Radiance placed on airbath floor will affect placement of air jets.
- System components may extend beyond the perimeter of deck.
- Please measure tub **on-site** before building tub decking.
- Advise MTI when planning to use a glass enclosure. Relocation of controls may be necessary.
- Suction and control locations may vary.
