Numbered areas on tub deck represent possible locations to install cleaning systems, faucets and other fixtures. Shown with Air Massage and Ultra Whirlpool Package.

NOTE: When the Metro 2 is installed using the contemporary tub surround with front glass shelves, wall-mounted filler valves are recommended. Additional access must be provided when a combination or Ultra package is ordered.

IMPORTANT:
Air baths and tubs with a pre-leveled foam base or frame system add 2-3" to overall tub height.

IMPORTANT ORDERING & INSTALLATION INFORMATION

- Before ordering or installing, please consider future access to equipment.
- Add proper bedding compound to fully level and support bottom of tub.
- When equipped with an air bath package, pre-leveled foam base or frame system, overall tub height is increased by approx. 2-3" and is designed to install on a flat, level subfloor.
- Radiance placed on airbath floor will affect placement of air jets.
- System components may extend beyond the perimeter of deck.
- Please measure tub **on-site** before building tub decking.
- Advise MTI when planning to use a glass enclosure. Relocation of controls may be necessary.
- Suction and control locations may vary.
