SATCO Starfish Outdoor P&T Security Camera 65-925

SATCO® | NUVO®

# Prepare the Starfish Outdoor P&T Security Camera

Pairing mode – The camera will cycle through upon power up. Lights on, lights off, side-to-side, up, down, back to center. Approx 30 seconds. Once cycle through is completed, camera is in pairing mode.

If the camera is unable to scan QR code for pairing; press & hold the reset button for 5 seconds, then release. The Security Camera will reset and go through the cycling process outlined above. Once completed, it is ready to be paired.

# Pairing the Starfish Outdoor P&T Security Camera via QR Code (default)

1. **On the Home Panel, Tap "+" in upper corner, to add a new device.**
2. **Select Add Device from the list.**
3. **Choose Outdoor Security Camera from the options.**
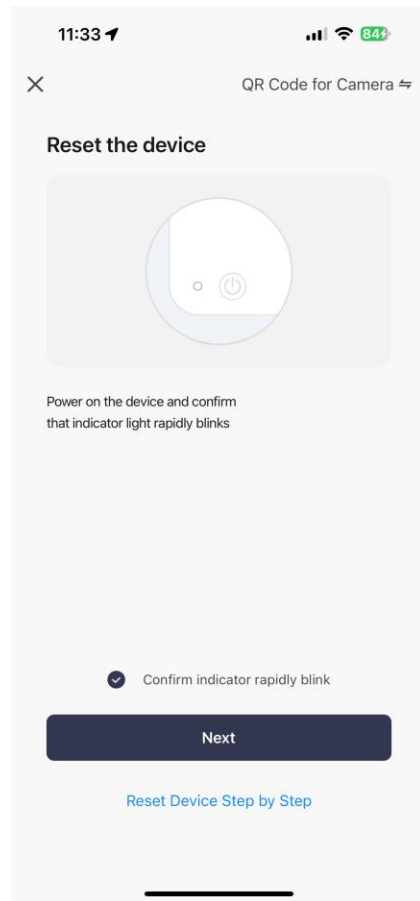

Confirm the indicator light is blinking rapidly, tap the circle to confirm. Tap Next.

Enter WiFi Network & Password. Tap Next.

QR code is generated. Place QR code 6 to 8 inches in front of the camera until a prompt is heard from the camera. Once prompt is heard, tap "I Heard a Prompt".

The Camera will begin to pair with the Network.

Pairing the Starfish Outdoor P&T Security Camera Manually

Select Add Device

Choose Outdoor Security Camera

Click the circle to confirm

Enter Network Name/Password
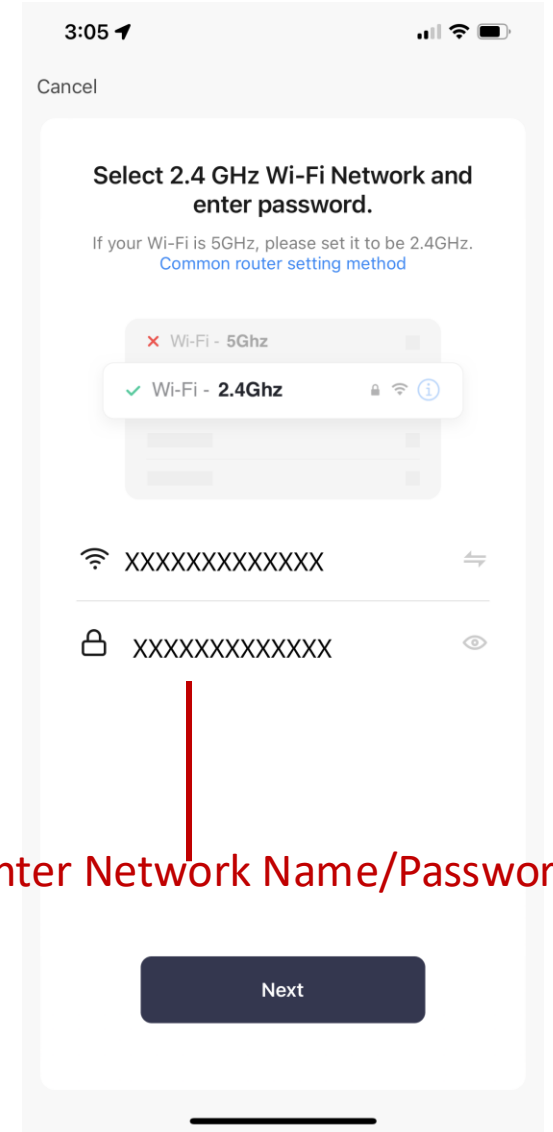

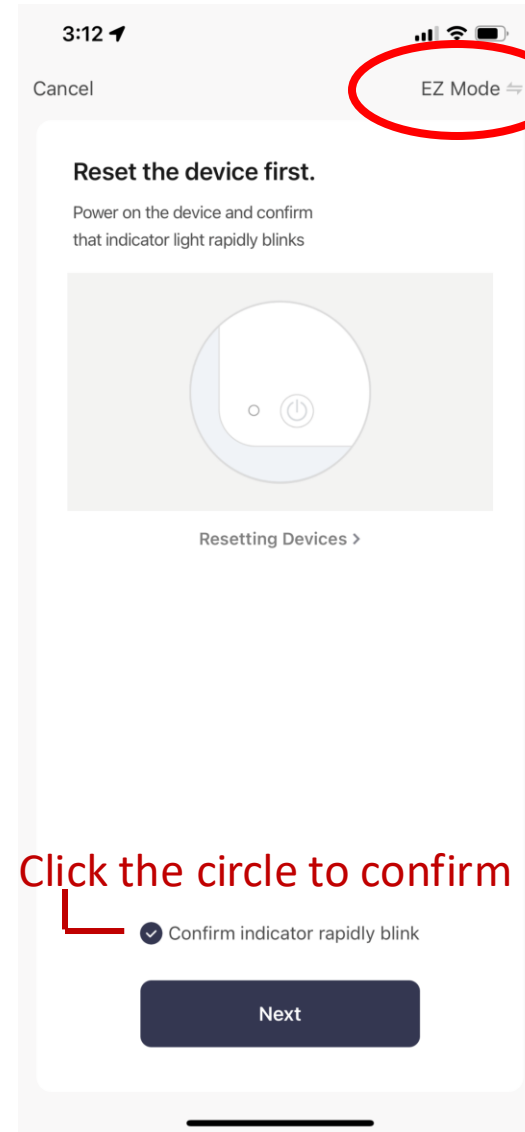

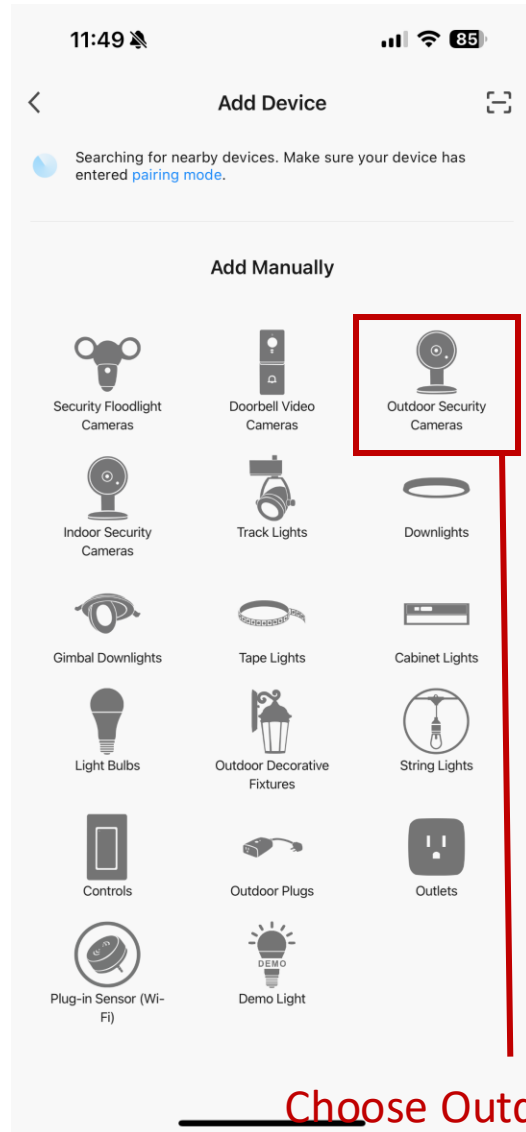

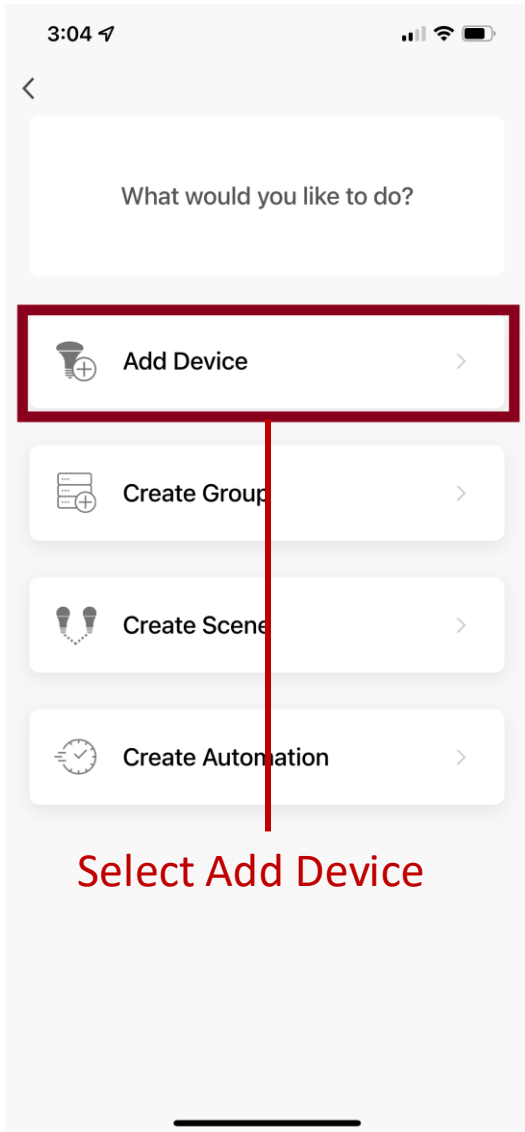

Pairing the Starfish Outdoor P&T Security Camera Manually con't
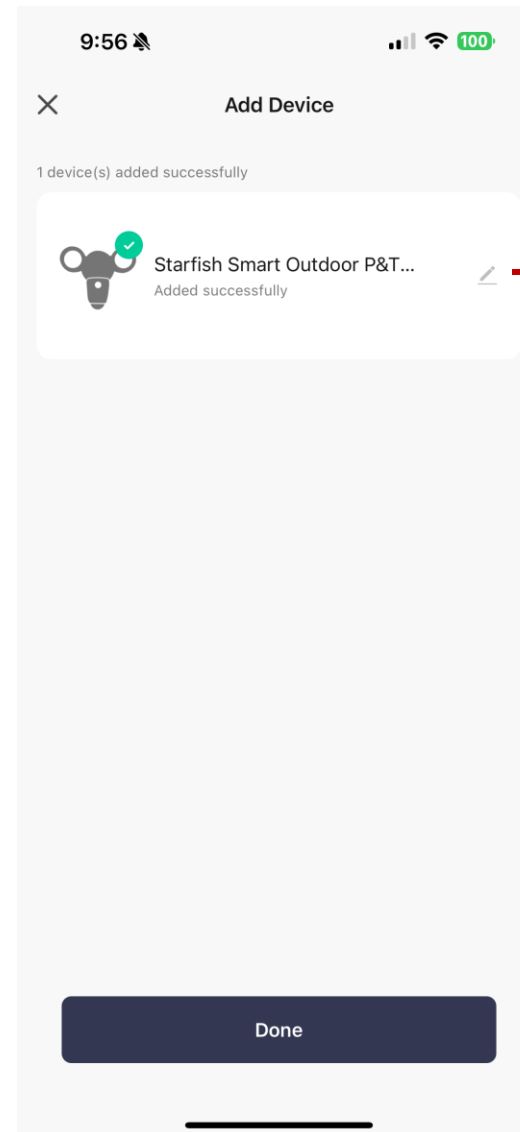

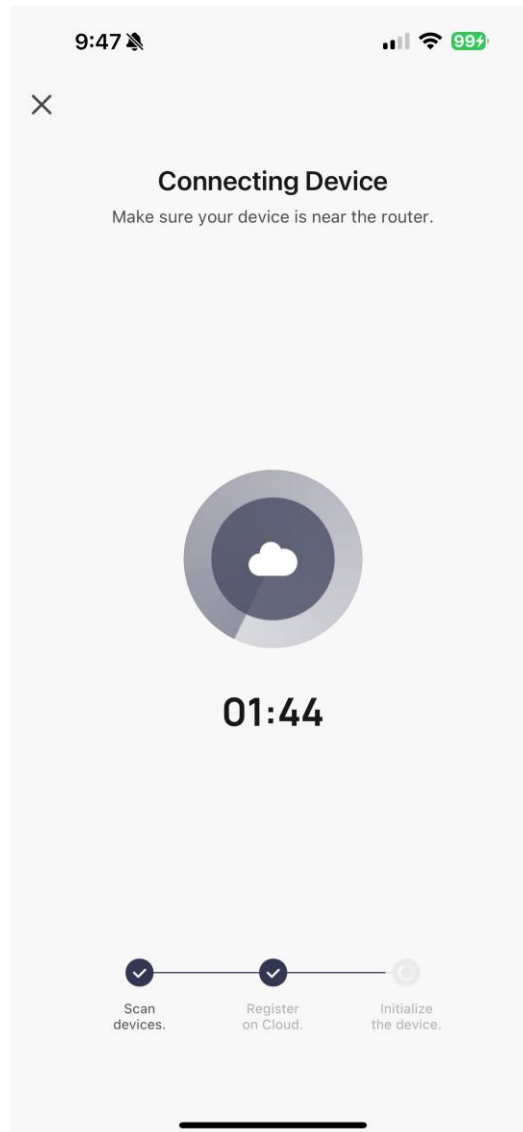

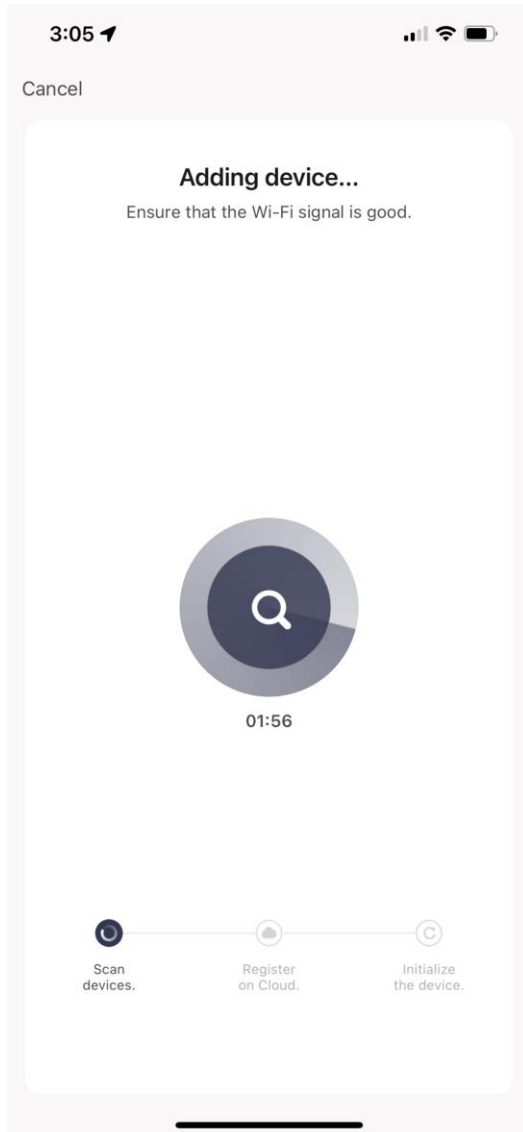

Click icon to edit device name and/or assign a room, change image. Otherwise, click done.
