The image shows a black, rectangular control panel with a large, color LCD screen. The screen displays a user interface with a dark background. At the top, it shows the date and time: 'Wed, Apr 30 10:54'. Below this, there are three main sections. The left section shows a weather widget with 'Partly Cloudy', a temperature of '20', and a 'Villages' image. The middle and right sections each show a 'Starfish Smart' bulb control with a color spectrum bar, a brightness slider set to '100%', and a '100%' power indicator. At the bottom of each bulb control section are three icons: a color wheel, a power button, and a moon icon. To the right of the screen, there are several physical buttons and a switch.

SATCO S11576

STARFISH 10" CONTROL PANEL
