STATEMENT MAKERS

RETRO REBOOT

The Duxford pendant is a prime example of pairing mid-century elements of style with clean, modern lines for an updated take on a popular longstanding trend.

NATURAL NICHE

The Mayland may be made of metal, but its resemblance to more natural materials provides a serene, boho-chic sense of organic style.

OVERSIZED & ASYMMETRICAL

Create a sense of movement with asymmetric patterns and larger-than-life fixtures, such as the 41" Birchleaf pendant.

MIXING MATERIALS

Shake up old designs with different combinations of materials, shapes and colors. The Edderton pendant breaks up a matte black frame with rose gold tones and stunning prismatic glass to grab your gaze.

BRANCHING OUT

Horizontal lighting departs from your traditional chandeliers, providing branch-like lighting for greater illumination. The Callicarpa, for example, stretches out with eight arms and rounded bulbs for eccentric styles.

THE 3 TYPES OF LIGHTING

THAT EVERY ROOM NEEDS

PHWL3321AGBR | P. 164

PHFL4133AGBR | P. 175

Improving the lighting in specific rooms is no easy task, and changing it throughout the entire house can be even more tedious. But it doesn't have to be. When making these changes, there are three types of room lighting to keep in mind: ambient, task and accent. All three options can produce stunning illumination in your home.

AMBIENT

To start, consider setting the tone of the room with ambient lighting from ceiling fixtures and chandeliers. Recessed lighting can make the room appear larger while providing a comfortable level of light. For even more control, install dimmers to adjust light levels throughout the day.

TASK

Task lighting can add concentrated doses of light and warmth to any room. Stylish table lamps provide brilliant task lighting for living rooms and home offices. For bright, clean bathrooms, consider installing light fixtures above the mirror or using sconces on either side. When lighting your kitchen, use under-cabinet lighting to illuminate countertop workspaces.

ACCENT

Pendant lights brighten rooms and draw visual interest when combined with high ceilings. These fixtures are ideal over kitchen islands and dining areas. Decorative pieces offer softer, diffused light when filtered through hand-blown glass.

LIGHTING GUIDE

Deciding on kitchen lighting can be a daunting task. Too large a fixture and the space feels off balance, but too small and the lighting may not be adequate enough for your daily activities. Consider your kitchen's size, colors and natural lighting when picking new fixtures. These days, track lighting is out—over-island chandeliers and mini pendants, however, are fantastic on-trend choices.

From romantic candlelit dinners to festive family feasts, illuminating your dining room is dependent on the room's style. Chandeliers are the top choice, sure, but oversized pendants are popular as well. Additionally, you'll need to think about different finishes that either blend well with the room's surroundings or provide a sudden contrast for visual flair.

Bedroom lighting is no longer limited to bedside lamps or unflattering ceiling fan lights. Instead, opt for a more modern approach and utilize out-of-the-ordinary fixtures like bedside wall sconces or hanging pendants for more focused illumination. These are brilliant ways to upgrade the look and feel of your most comforting, personal home spaces.

Ditch the harsh fluorescent overheads and install warmer, more appealing fixtures in your bathroom. Wet-rated wall sconces have seen an uptick in use in modern bathroom settings, but you might take things a step further and install a luxurious pendant or chandelier over your new soaking tub for that ultimate sense of relaxation.

INTERIOR LIGHTING

PHPL5591PN | P. 112

"LIGHT IS THE FIRST ELEMENT OF DESIGN; WITHOUT IT, THERE IS NO COLOR, FORM OR TEXTURE."

- THOMAS E. FARIN
EDUCATOR, LIGHTING CONSULTANT, ENTREPRENEUR

ANDREO

Aged Brass

Textured Black

The Andreo collection features cylindrical glass and metal elements that pair nicely with a contemporary setting, helping to round out the home's interior lighting style.

BANKLOFT

Polished Nickel

Tradition takes an elegant leap forward with the Bankloft collection. Combining classic white linen fabric shades with a polished nickel finish and clear globe accents, the effect is both rich and beautifully contemporary.

BLACKPOOL

Black

For modern design tastes, consider the sleek Blackpool collection. This contemporary design features slim, rounded arms that set candle lights at varying heights. Select from wall-mounted and chandelier options to add a mysterious air to your home.

BLYTHEDALE

Matte Black

The Blythedale collection features cubic elements all throughout its distinct style. The matte black frame is supported by striking silver chains and contains additional polished silver elements inside for a superior shine.

CAMBERLEY

Antique Silver Leaf

The Camberley collection features a hand-applied antique silver leaf finish and a geometric pattern, combining a modern look and a worldly sensibility. Dual-sided stainless steel mirror insets bounce beautiful reflective twinkles throughout the drum light design.

CARTGATE

Polished Stainless Steel/
Antique Brass

The Cartgate collection is a study in contrasts. The modernity of the open framework design is balanced by the traditional use of candle lights. Mixed metal construction combines angular stainless steel frames accented with graceful tapered candles in antique brass.

CROSS POINTE

Antique Silver Leaf

COLLECTIONS

Diamond-shaped crystals and hand-applied antique silver leaf finish bestow the Cross Pointe collection with an air of luxury and lightness. The unusual zig zag pattern of the arms, combined with the use of octagonal and oval drum shapes instead of round, give a twist of uniqueness to these opulent, handcrafted pieces.

CUTHBERT

Polished Nickel

The Cuthbert collection is a contemporary take on the traditional chandelier style. Hard angles and a polished nickel finish contribute to this fixture's stunning look. The reflective surfaces amplify the radiance stemming from candle lighting.

CYPRESS POINT

Antique Silver Leaf

Undeniable boldness is the hallmark of the Cypress Point collection. Inspired by geometric trends in the fashion industry, large thick blocks of faceted crystal and angled shapes finished in hand-applied antique silver leaf stack together to create a strong presence in any room.

Silver Leaf

A

True statement pieces, the Fayette three-light and six-light pendants are the perfect choice for a lavish update. Featuring a wealth of crystal accents, this fixture has a faceted crystal ball that hangs at the bottom. The candle style light rests on clear bobeches as if the bulbs were made of candle wax.

PLAZA

Oil Rubbed
Bronze

Polished Nickel

Lend your space an eye-catching decorative touch with the Plaza four-light and eight-light pendant chandeliers. These fixtures are crafted of square metal tubing, which is pieced together to form a dual-cage geometric design. Within their framework are candelabra-inspired light bulbs which will effectively brighten any dark space.

DINING ROOM FIXTURE SIZING & MOUNTING

ROOM WIDTH	FIXTURE WIDTH		ROOM HEIGHT	FIXTURE HEIGHT	CEILING HEIGHT	DISTANCE FROM BOTTOM OF FIXTURE TO TABLE SURFACE
	MAXIMUM	MINIMUM		MAXIMUM		
10'	30"		8'	24"	8'	30"
11'	33"		9'	27"	9'	33"
12'	36"		10'	30"	10'	36"
13'	39"		11'	33"	11'	39"
14'	42"		12'	36"	12'	42"
15'	45"	SEE NOTES BELOW	13'	39"		
16'	48"		14'	42"		
17'	51"		15'	45"		
18'	54"		16'	48"		
20'	57"		17'	51"		
21'	63"		18'	54"		
					ABOVE 12'	Fixture should be mounted more in relation to the room than to the table

MINIMUM WIDTH RECOMMENDATIONS:

Add width of room + length of room and use this number as inches.
 For example: If room is 12' wide by 16' long, then add 12 + 16 = 28.
 The minimum width would then be 28".

NOTE: For 10' ceiling heights or below, fixture should not exceed width of table less 12".

BATH FIXTURE SIZING

SCONCES:

Mount on side of mirror. Center box 66" above floor.

RECESSED:

Centered in room, 4'-6' apart. If using sconces, add one mounted above sink.
 Never mount behind where the person would stand.

VANITY:

Fixtures mounted above mirror should be approximately 80" above floor.
 Minimum lighting at each sink: 120W incandescent; 36W fluorescent; 1000-1400 lumens

Vanity Size	Incandescent/Halogen Light Source	LED
24"	120W Incandescent	1000-1400 Lumens
36"	180W Incandescent	1400-1800 Lumens
48"	240W Incandescent	1800-2200 Lumens
60"	300W Incandescent	2200-2500 Lumens

OUTDOOR FIXTURE SIZING

FOR ONE LANTERN:

If you place a lantern on only one side of the door, it should measure no more than 33% of the height of the door. The center of the bulb should rest 66" above the threshold of the door.

For example, if the door is 84" (7') high, then the fixture should be no more than 28" high (84" x 0.33 = 28").

FOR TWO LANTERNS:

When two lanterns are used, they should each measure approximately 25% of the height of the door. This should be the maximum height. The center of the bulb should rest 66" above the threshold of the door.

For example, if the door is 84" (7') high, then the fixture should be approximately 21" high (84" x 0.25 = 21").

Minimum height for one and two lanterns should be approximately 20% of the height of the door (84" x 0.20 = 17").
