**Package Contents**

**NOTE:** There are two methods provided that can be used to identify the Hanger locations to mount the mirror. Option A uses a template, Option B is measuring the hanger locations

**Option A - Template**

The template provided is a full size drawing of the mirror and the hanger mounting locations.

Identify if the mirror is to be hung vertically or horizontally and use the appropriate hanger locations on the template.

Place the template on the wall where the mirror is to be hung assuring the template is level and mark the nail locations through the template to the wall.

Proceed to Step 1 to install the mirror hangers.

**Option B - Measure to locate hanger locations**

A. Hold the mirror up to the wall and mark the top of the frame on the wall. This mark will be used to locate the hanger locations on the wall

B. Measure the distance from hanger location on the mirror frame to the top of the frame.

C. Use the measurement in Step B to locate the hanger location on the wall from the mark identified in Step A. Do this for both hangers.

D. Proceed to Step 1 to install the mirror hangers.

**STEP 1 - Installing the 2 Mirror Hangers**

A. Using the Nails (B) provided with the Mirror Hangers (A) attach the 2 Mirror Hangers (A) to the wall at the position just marked by Option A or Option B. **Please note the Mirror Hangers are adjustable allowing for easy leveling of the mirror as needed.**

B. Once you have both Mirror Hangers (A) securely nailed in place, adjust as the length of the Mirror Hangers (A) so that each Mirror Hanger (A) is the same length.
