

## Foster Electric Stove

Designed to look like a built-in wood stove, the Foster electric stove mimics the look of a real fire, but does not require a chimney or vents and plugs into a standard outlet for convenient set up. The glass doors are framed in a mission style design and the glass-paneled sides allow for maximum beauty and light distribution. Multiple heat settings, optional use of the chimney and a compact footprint make this fireplace ideal for smaller settings.

**Available finish:** black

# 5020E

### Assembled Dimensions:

- 25"L x 15"W x 56.5"H; 42 lbs

### Technical Information:

- Heat output: 4,700 BTUs
- Heating power: 120V/60Hz, 1400W, 11.7 amps
