

Sonia Electric Fireplace

A minimally sculpted mantel gives the Sonia Electric Fireplace a contemporary look, while the faux brick surround captures the charm of a traditional, built-in hearth. Part of the Real Flame® Landscape Series, this widescreen electric firebox mimics the look of a real fire, but does not require a chimney or vents and plugs into a standard outlet for convenient set up. Features include infrared LED technology, multiple flame colors and dynamic glowing embers.

Available finishes: Black, White
