

Cast Iron / Data Sheet

Applications

Ideal for floor installations.

Features & Benefits

- Design: Scroll
- Material: Cast Iron
- Flange Thickness: 3/16"
- Total thickness at the designed area: 1/2"
- Underside Lip
- Over 30 Sizes
- Finish: Black Powder-Coat
- Designed for high-traffic floor installations
- Optional: Mounting Holes
- Optional: Matching Louver

Installation

- Cast Iron grilles are recommended for floor installation only.
- Wall or Ceiling installations should be mechanically secured and/ or used with a frame. Liquid nails alone, for example, is not recommended.
- Adding a louver is an easy way to control air flow and increase cooling and efficiency. Our high quality louvered assemblies fit behind our grilles and can be adjusted easily with a key to tune the volume of air moving through your unit.

High Velocity / Data Sheet

Applications

Ideal for floor, wall, and ceiling installations.

Features & Benefits

- 2 Design Options: Open, Grille
- Size (Open): 5" diameter
- Size (Grille): 5-1/2" diameter
- Flush Mount: 6¾" Square
- Size (inside): 2" diameter
- 2 Materials: Aluminum, Wood, Solid Brass
- 7 Metal Finishes
- Wood: Red Oak
- Wood: Finished, Unfinished
- Made in USA

Installation

- Open Style: Ideal for ceiling and high wall openings – includes our exclusive hole-guard
- Grille Style: Just right for low wall and floor openings – keeps children's fingers, pet paws, and small objects out of the opening.
- Reggio Register's exclusive hole-guard keeps many small items from ending up in the system. Available on all styles, this distinctive center guard captures objects as small as a marble.
- All outlet covers include a special adapter that slides neatly into the system's 2" diameter flexible tubing, creating an easy, secure and permanent attachment.
