

REGINA ANDREW

DETROIT

ITEM NO: 14-1019NB
Geo Rectangle Floor Lamp (Natural Brass)

ASSEMBLY INSTRUCTIONS

1. Carefully remove all parts from box and remove all plastic covering from lamp parts. For ease in unpacking, open the top and bottom of the carton and remove the styrofoam packing. The styrofoam packing consists of multiple layers, each holding different parts of the lamp.

2. Fix Pipe 1 into Metal Frame. Fix the Metal Frame and Pipe 1 into Pipe 2. Rotate the Metal Frame clockwise, and pull out the cord. If the threads do not grip when assembling Pipe 1 and Pipe 2, turn top portion of Pipe 1 and Metal Frame counter clockwise for a few turns and start again.

3. Lift shade over bottom section of fixture. Slide C Fitter on Shade between Shade Washer (A) and Shade Washer (B) on Metal Frame. Secure position of shade by turning Shade Washer (B) clockwise until it rests firmly against C Fitter.

4. Insert appropriate bulb into socket.

5. Insert the polarized plug to wall outlet, turn on switch and enjoy your new lamp.

CLEANING AND CARE:

Use a soft cloth only, do not use any chemical or abrasive cleaners.

IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one-way. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

Made in China
