DESIGN CONSIDERATIONS

From bright task lighting to soft ambient lighting, our Vertical Lighting Collections can enhance every part of the daily routine. Discover how the flexibility of modular lighting can elevate your styling space design.

MAXIMIZE YOUR SPACE

SMARTER STORAGE

Beyond its striking aesthetic, the slim profile of Vertical Lighting offers the ultimate space-saving solution. Our modular collections pair seamlessly with your Robern cabinet or mirror to provide an integrated lighting solution without losing precious inches of wall space — so you can maximize storage and create a clutter-free oasis.

SEE YOUR TRUEST REFLECTION

LED COLOR TEMPERATURE

From a warm incandescent glow to cool, energizing task lighting, choose the Vertical Lighting Collection that provides the perfect Kelvin color temperature for your needs.

OPTIMAL TASK LIGHTING

With a high lumen output and ideal placement in relation to the face and body, our Vertical Lighting Collections eliminate harsh shadows and provide bright, even task lighting.

HIGH COLOR RENDERING INDEX (CRI)

Remarkably accurate color rendering, with a CRI value of 90+ and R9 of 50+, ensures the truest reflection.

DESIGN CONSIDERATIONS

CREATE A STUNNING SILHOUETTE

WARM AMBIANCE

Add soft, ambient light to your styling space with all the benefits of modular lighting. The natural warmth of the Vesper™ Vertical Lighting creates a spa-like atmosphere. Select the ideal brightness for any task with smooth, continuous dimming to 1%.

FINE-TUNE YOUR LIGHTING

COLOR
TEMPERATURE

WARMER

COOLER

THE RIGHT HUE

Variable lighting technology lets you set the ideal color temperature to suit your styling needs. Adjust between 3000K and 4000K with InLine Lighting, or between 2700K and 5600K with Profiles® Lighting.

VESPER™ VERTICAL LIGHTING

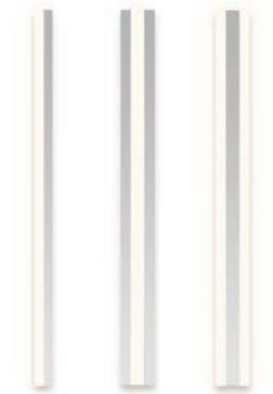

Available in three configurations — Edgeline, Midline and Outline — the minimalist aesthetic of the new Vesper Vertical Lighting brings a thin and unobtrusive width and profile that creates a visually clean medicine cabinet and light installation as well as an inviting glow to your styling space. Warm lighting gently illuminates the wall behind for an elegant silhouette effect, and gangable design allows for seamless integration with Robern Medicine Cabinets and Modular Mirrors.
