## 6" LED Module/Trim Component

### DESCRIPTION

The 8571 is a 6" LED module/trim that is an ideal solution when paired with the 8116HIC for affordability, safety, and efficiency in any new construction project requiring an IC rating.

### DESIGN FEATURES

#### Construction

- Spun aluminum reflector with plastic trim ring
- Robust extruded aluminum heatsink

#### Electrical

- Universal voltage: 120-277V
- Triac dimmable with 8116HIC driver
- 50,000 hour projected life
- 15W | 950Lm
- 23W | 1,500Lm
- Available in 3000 or 4000K CCT
- Suitable for use in damp locations

#### Installation

- Easy installation with torsion springs and a plug-in quick connect for the 8116HIC

#### Lens

- Textured clear glass lens

#### Finish

- Available in haze

#### Certifications

- cETLus
- 5 year limited warranty

#### Compatibility

- 8571 requires the 8116HIC for operation and is not compatible with any other housing.

### ORDERING

Example: 8571-WH-15-3K

Trim	Finish	Watts	CCT
8571			
8571	HZ : Haze	-15 : 15W -20 : 23W	-3K : 3000 K -4K : 4000 K

\*23W will be ordered as -20
