The Apothecary Collection from Sagehill Designs is inspired by the simple wooden boxes used for centuries to store Eastern healing herbal remedies.

Crafted from select hardwood solids and veneers, the faux drawer fronts feature delicate ring-pulls and a raised frame molding. The vanities also feature a unique variable-height leg option which allows the same cabinet to be adjusted in height for under-mount sinks as well vessel style sinks.

The Apothecary Collection by Sagehill Designs will help bring a rich healing tradition into your bath, home, and life.
