

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electrical shock, exposure to excessive UV radiation, or injury to person:

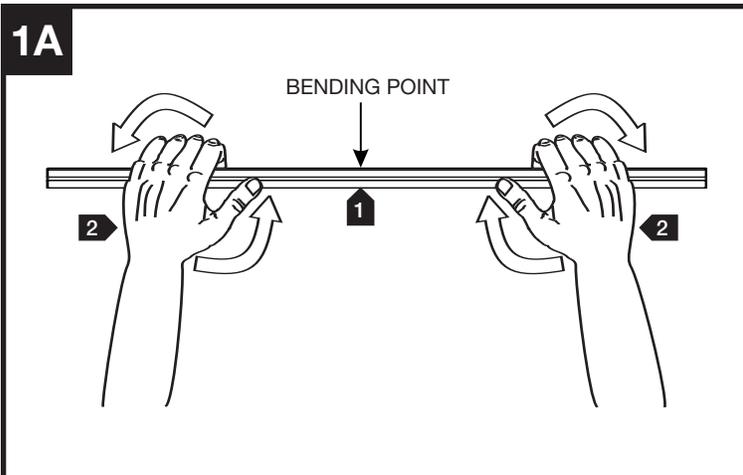

- This rail should be installed in dry locations only.
- Use of other manufacturers components will void warranty, listing and create a potential safety hazard.
- This product is intended for use with RTx low voltage lighting systems only.
- Save these instructions.

BENDING THE RAIL USING A TEMPLATE

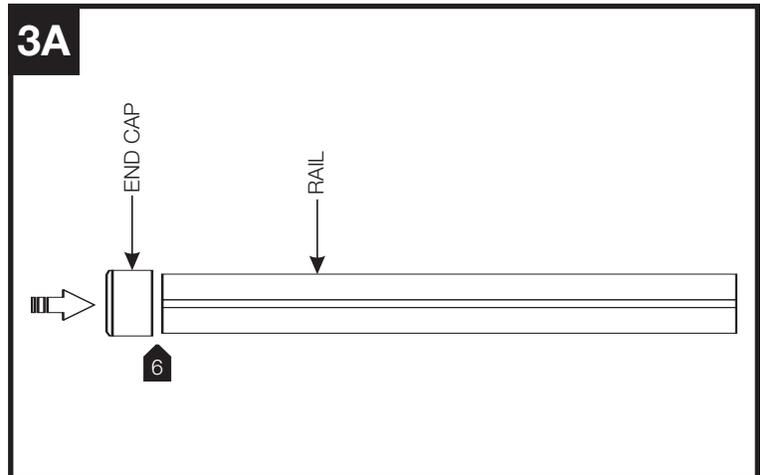

- 4 Hold one edge of the rail against the template.
- 5 Start bending the rest of the rail along the template until the desired curve is achieved.

BENDING THE RAIL FREESTLYE

- 1 Choose the center of bending section on the rail. The bending point should be centered between the hands.
- 2 To ensure a smooth curve, begin with hands as far as apart as possible, moving the hands closer together as bending progresses.
- 3 Constantly check the rail against the pattern (if any) until the desired shape is achieved.

INSTALLING THE END CAPS

- 6 Gently tap the end cap completely onto each open end of the rail.
