

DOCTOR'S DOOR KNOCKER INSTALLATION

BEFORE INSTALLING

Read entire door knocker installation instructions. Observe all local building and safety codes. For the following installation instructions it is assumed that any old fixtures have been removed and any repairs to the door have been completed.

INSTRUCTIONS

Unpack and inspect the product for any shipping damages. If you find damages, do not install. Contact Customer Service at 1.855.715.1800. If you need assistance or have questions while installing your door knocker contact Customer Service.

We recommend consulting a professional if you are unfamiliar with installing hardware fixtures. Signature Hardware accepts no liability for any damage to the door or for personal injury during installation.

TOOLS AND MATERIALS:

Pencil

Drill

Screwdriver

1/4" Drill Bit

Level

INSTALLATION

1. Determine a location on the door to mount the door knocker.
2. Mark the locations of the bolt holes on the door, 4 1/4" apart on center. Use the level to make sure the marks are even.
3. Drill a hole in the marked locations with a 1/4" drill bit. Take care to drill the holes as straight as possible.
4. Hold the door knocker's strike plate in place on the front of the door. Insert the mounting screw through the back of the door, and tighten with a screwdriver.
5. Slide the backplate onto the door knocker, then hold the door knocker onto door at the installation location. Attach the knocker to the door using the second screw provided.

Note: If necessary, the provided mounting bolts can be trimmed to the appropriate length with a hacksaw.
