

# 7W

## BATTERY BACKUP WITH HOOK

L07A1927KBAT

### OVERVIEW

A power outage shouldn't mean complete darkness. That's why the Simply Conserve® Battery Backup Lamp functions like a normal light bulb – until it's needed most. When the power goes out, the bulb stays on by operating in back-up battery mode. It charges when the light is on, so it's always ready to shine. Fully portable and rechargeable, the Battery Backup Lamp is ideal for home, office and commercial uses. Its damp-rated functionality also makes it a popular choice for outdoor usage in gardens, camping trips and more.

### POTENTIAL LIFETIME SAVINGS: 795 KWH/\$87\*

\*Compared to a 60W incandescent, 3 hours per day, ~\$0.11/Kw

Non-Dimmable

Instant-On

Damp-Rated

3.5hr Battery Life

Keep the lights on when the power goes out.

#### 1-Year Limited Warranty:

If this A21 Battery Backup lamp fails to operate for a 1-year period under normal consumer use (6 hours/day, 7 days/week), from the date of purchase or distribution by an energy conservation program and has been properly installed, AM Conservation Group will replace the lamp free of charge.

## INSTRUCTIONS

The Simply Conserve® **LED 7W A21 Battery Backup Lamp** offers the perfect solution for continuous light during power outages. This unique LED bulb works like a normal light bulb – except it won't turn off when you need it most. It features a built-in battery which recharges while screwed into the light socket. In the event of a power outage, these bulbs will remain on for up to 3.5 hours.

When the power goes out, simply turn on the battery switch to operate the bulb in battery mode. Also included with the bulb is a hook power cap that easily screws onto the bulb, enabling it to be operated like a flashlight. Alternatively, the bulb can be hung anywhere for hands-free light without power. The bulb can also be turned on by touching the top and sides of the metal base with moist hands or a wet cloth.

Providing 600 Lumens of output and featuring a comfortable 2700k warm white color, these bulbs provide light when it's needed most. The standard E26 medium base will fit into any E26 lighting application.

## APPLICATIONS

- Kitchens
- Hallways
- Stairways
- Garages
- Basements
- Bathrooms
- Offices
- Ceiling fixtures
- Lamps
- Camping
- Hiking
- Hurricanes
- Tropical storms
- Emergency kits

## TECHNICAL SPECIFICATIONS
