|------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | Aquatest measures the clarity of the water during an auto program, and automatically ensures the minimum consumption of water and energy.                                                                                               |    | COMM_HEIGHT_82_72dpi                                                                                                                                         |
|    | Delay Timer: The delay timer can postpone the start of the program by up to 24 hours.                                                                                                                                                   |    | FlexiZone: The ½ load flexizone allows you to wash a reduced load saving energy, water and time and there are no restrictions on where the items are placed. |
|    | Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption. |    | Noise Level: Excellent insulation and special devices keep noise to a minimum.                                                                               |
|    | Delicate: Delicate washing program is designed for delicate dishes which are not heavily soiled.                                                                                                                                        |    | Delicate: Delicate washing program is designed for delicate dishes which are not heavily soiled.                                                             |
|   | PRG_RINSE_72dpi                                                                                                                                                                                                                         |   | PRG_STRONG_72dpi                                                                                                                                             |
|  | EXTRA DRY This option adds a hot rinse cycle that ensures improved drying.                                                                                                                                                              |  | The Regular programme is for dishes with regular dirt, even with dried-on residues.                                                                          |
