

Important: Always disconnect the power before installing or replacing bulbs and before cleaning or other maintenance.

This light should be installed by a licensed electrician

LAMP INSTALLATION AND ASSEMBLY

1. Shut off power to the outlet box. (fig. A)
2. Make appropriate electrical connections using wire nuts:
 - a. Connect the surge protector's live wire (black) to the live outlet box wire.
 - b. Connect the surge protector's neutral wire (white) to the neutral outlet box wire.
 - c. Connect fixture's ground wire (green or uncoated) to the ground outlet box wire. If no ground is present in outlet box, connect fixture's ground wire to the mounting plate using the green screw (included).
 - d. Carefully place connections and surge protector in outlet box.
3. Attach the mounting plate to the outlet box, secure with outlet box screws.
4. Attach the back plate to the mounting plate, secure with mounting screws.
5. Install the glass to the bracket by fitting the studs on bracket into holes on glass, secure with silicone washer and knurled nut.
6. Restore power to the fixture.

CARE INSTRUCTIONS

- Dusting – Use a clean, dry cloth.
- Cleaning – To protect the finish, avoid any harsh abrasives or chemicals.

Note: This fixture is dimmable with Electronic Low Voltage (Trailing-Edge) and Incandescent (Leading-Edge) type dimmers. For best performance, we recommend using an Electronic Low Voltage dimmer.
