Care and Cleaning Instructions

Glass Surfaces:

Use a squeegee to clean your glass door surfaces after showering. Do not use a bristle brush or abrasive sponges, as they will scratch some glass surfaces. Never use abrasive cleansers, and do not allow cleaners to sit or soak on surfaces. Please use only the following cleaning products on your shower door's glass surfaces: Formula 409®, Glass and Surface Citrus Scent, Glass Plus®, and Windex ® Original.

Finished, Metallic or Painted Surfaces:

Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, or solvents for cleaning, as they may damage the finish. By taking the time to dry your shower door after each use, you can prevent soap and water deposits from forming. Failure to comply with these cleaning instructions may void Sterling's warranty obligations.
