

## S-6080 Series

- **Easy drop-in installation**  
Due to above-the-deck technology
- **Easy battery access**  
Faucet housing can be easily removed for battery access.
- **Three year battery life**  
Based on 210 cycles per day
- Stylish design
- Can be installed for pre-set or user-adjustable temperatures depending on your application
- Solid brass housing
- PSD sensors are unaffected by inconsistent lighting environments, varying surface colors or textures and splashes - resulting in the most reliable performance available.
- Watertight seals protect the sensors and internal electronics while providing convenient above-the-deck access.
- 1.5 GPM vandal resistant aerator (0.5 GPM and laminar available)
- Options include 4" and 8" Deckplate or single hole mounting.

### How PSD works

Symmons Ultra-Sense® is available in this finish:

Polished Chrome

Symmons legendary S-6080 Ultra-Sense Sensor Faucet has become the first choice for countless contractors, engineers and architects across the country since it was first introduced over a decade ago.
