1.5

GENERAL PRODUCT INFORMATION:

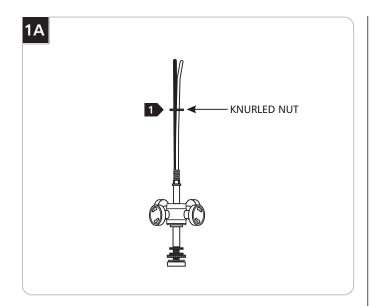

This product is suitable for damp locations.

This instruction shows a typical installation.

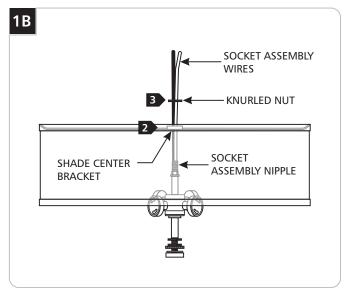

Installing the Fixture

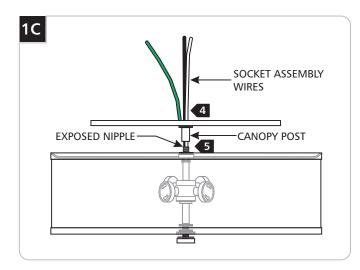

CAUTION: To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture.

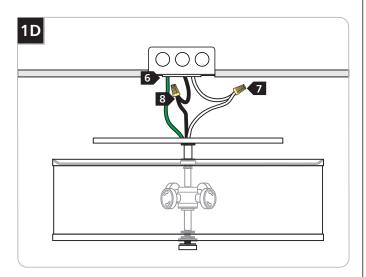

1 Unscrew and remove the knurled nut from the socket assembly.

- 2 Feed the socket assembly wires through the shade center bracket hole and the knurled nut.
- Tighten the knurled nut completely to the socket assembly exposed nipple.

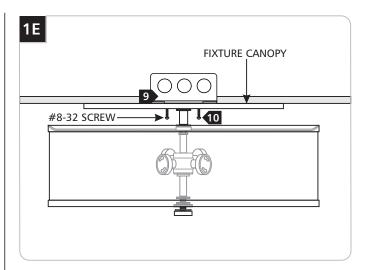

- 4 Feed the socket assembly wires through the canopy post.
- 5 Rotate the canopy clockwise to tighten the canopy post completely to the exposed nipple.

NOTE: Use the provided universal round crossbar when the canopy holes do not line up with the electrical box holes.

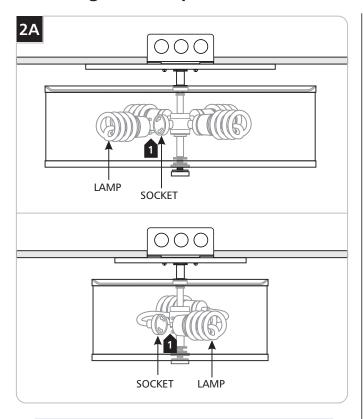

NOTE: It is recommended that one person hold the chandelier while the electrician connects the power and installs the canopy cover.

- 6 Make sure fixture canopy is grounded in accordance with local electrical codes.
- **7** Connect the fixture white wire to the neutral power line wire with a wire nut.
- 8 Connect the fixture black wire to the hot power line wire with a wire nut.

- Place all wires and wire nut connections inside the electrical box.
- Mount the fixture canopy to the electrical box with the provided two #8-32 screws.

Installing the Lamps & Glass Disk

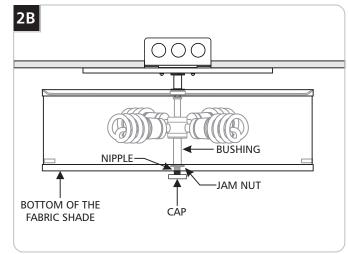

CAUTION: To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture.

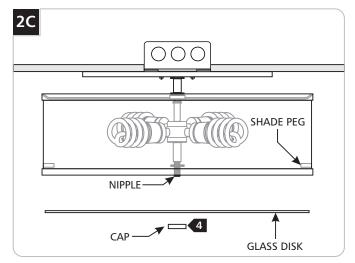

Use **MAX** 120 Volt, **18 Watt** Type GU24 Base Self Ballasted Spiral Compact Fluorescent Lamp With Each Socket.

1 Push the lamp pins into the large portion of the socket slots and rotate it clockwise to lock it in place securely.

- 2 Loosen the knurled nut and adjust the nipple height so the back of the cap is level with bottom of the shade.
- 3 Tighten the jam nut firmly against the bushing.

- 4 Remove the cap.
- Place the glass disk onto the nipple and secure it against the shade pegs with the cap.

NOTE: Do not over tighten the cap. Overtightening may break the glass and result in injury.
