

INSTALLATION INSTRUCTIONS

Model # 9251-PL

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

PREPARING FOR INSTALLATION (Fig. 1)

1. Shut off power at the circuit breaker and remove the old fixture including the mounting hardware.
2. Carefully unpack your new fixture and lay out all the parts in a clear area. Take care not to misplace any small parts necessary for installation.
3. Thread the two studs (B) into the pre-drilled holes in the circular strap (C) spaced the same distance apart as the holes in the back plate (H), and then tighten with the nut (E).
Note: the length of studs (B) may be adjusted.
4. Attach circular strap (C) using outlet box screws (F) to the outlet box (A), (Fig 1). The side of the circular strap marked "GND" must face out.

CONNECTING THE WIRES (Fig. 2)

5. Connect the electrical wires as shown in Fig.2 making sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the circular strap (C) using the green screw (D) provided.

FINISHING THE INSTALLATION (Fig. 1)

6. Place the back plate (H) over studs (B) and secure with cap nuts (G) (Fig 1).
7. To prevent moisture from entering the outlet box (A) and causing a short, use clear silicone sealant to outline the outside of fixture back plate (H) where it meets the wall leaving a space at bottom to allow moisture a means to escape (Fig 4).
8. At this point, install 1*13W/GU24/PL bulb (one bulb included) from bottom directly in accordance with the fixture's specification (Fig 1, 3). **(DO NOT EXCEED THE MAXIMUM WATTAGE RATING) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)**
9. This fixture is rated for a minimum start temperature of 0 degrees Fahrenheit (-17 degree Celsius).
10. This fixture is ETL Listed for Wet Location applications.
11. Fluorescent lamps contain Mercury (HG) Dispose of according to Local, State and Federal Law. (www.epa.gov/bulbrecycling).

Your installation is now complete. Return power to the outlet box and test the fixture.
