We can not anticipate every possible installation situation or condition. The variety of installations possible for this shower floor may require procedures other than those shown. Plan ahead to ensure that stud wall framework construction is correctly sized, plumb, and square.

* Make sure the drain hole in the subfloor or slab is large enough (6" diameter recommended) and aligns with the hole in the shower floor.

! SAFETY INFORMATION

Please read and understand this entire manual and the appropriate wall panel installation manual before attempting to install the product.

WARNING

• DO NOT proceed if any doubt arises about the correct or safe method of performing anything found in this manual. If necessary, hire or consult a trained professional for expert assistance before continuing.

CAUTION

Use care when opening the box so you do not damage the shower base.

PREPARATION

Estimated Installation Time: 60 minutes

Tools Required for Assembly (not included): Level, Shims, Drain Fitting, Silicone/ Plumber's Putty, Wrench, 5 Gallon Empty Bucket, Thin Set Mortar & Water, 1/4" - 1/2" Grooved Trowel.

The stud preparation is critical for the installation of the shower base. It is essential the stud pocket be constructed square and plumb according to the roughing in information provided.

1. Please inspect the shower base for breakage and report any damage to the store of purchase. Allow the shower base to acclimate to room temperature before installing.
2. Clean and scrape the floor of the shower base alcove. This space must be free of any debris in order to get a proper adhesion with the thinset mortar.
3. Measure the size of the alcove to insure that the base and panels fit properly.
4. Trial fit the base in the alcove and make sure that the drain location lines up properly with the shower base. Placing a level on the base, check that the base sits level on the floor. If needed, use shims to level the base in the alcove. Note the shim locations before removing the base. Lean the base back or remove from the alcove.

1. INSTALLING THE PAN

Install the drain fitting into the shower pan. Follow the installation instructions that came with the drain. Plumber's putty or silicone are acceptable to use with the drain.

Mix and apply thin-set mortar to the floor, using the notched trowel. Spread the mixture to achieve a depth necessary to fill the voids in the floor and enable the pan to sit level. A 50 lb. bag of thin-set should provide at least 45-50 square feet of coverage. All supporting points should have contact with the thinset mortar.

2. After applying the thin-set, replace the shims (if necessary) in the proper location and set the pan into place. Make sure the pan is resting level on the thin-set and shims and centered in opening.
3. Clean the area at the threshold of any excess thinset. Allow the thin-set and shower pan to cure for 24 hours before working in the pan area. Be sure to protect the pan floor after installation, using card board sheeting or a like material, until the complete project is finished
4. Before proceeding to install the wall system, flood test the shower pan for proper drainage.

CARE AND MAINTENANCE

Simply wipe the surface with a damp towel to remove watermarks and residues. For basic stains, clean with mild detergent or general purpose cleaner. For cleaning corners and seams, spray with mildew cleaner.

WARRANTY

Sheet Molding Compound Shower and Tub Walls, Shower Bases
5 Years Ltd. Residential / 3 Years Ltd. Commercial

We expressly warrant that products as listed above to be free of defects in material and workmanship, subject to the limitations set forth in this Limited Warranty. Each product will function for the purpose for which it was designed for the time period designated above from the date of purchase to the original buyer, provided it has been installed in accordance with the installation instructions provided and used as recommended, and not damaged due to excessive heat or abuse.

This warranty does not cover replacements and/or corrections caused by misuse, improper maintenance or normal wear and tear, acts of nature, scratches, chips or damage caused by failure of any adhesive, caulk or other accessory, or failure of any caulked or filled joint or seam. This Limited Warranty covers the product for normal interior use in the United States, Mexico and Canada and does not cover the product moved from its original place of installation. Labor charges incurred during any installations are not included under this Limited Warranty,

We will, at our option, repair, replace, or refund the purchase price of the product to the original purchaser if a product fails due to a manufacturing defect, which is discovered during the warranted years as listed above after the initial purchase. Replacements and/or corrections are at our sole discretion and will be limited in scope to reasonable and equitable remedy.

This Limited Warranty applies to these products that are purchased after January 1, 2011 and maintained as described by care and maintenance guide. You may obtain coverage by providing proof of the date of initial purchase. For service under this Limited Warranty, you must notify us in writing, providing your name and address, a description of the product involved, the nature of the defect or failure, and proof of purchase and date of purchase. Repair or replacement shall not include any labor charges. This limited warranty is non-transferable.

The address to which warranty problems should be reported is:
PO. Box 30
Warren, OH 44482-0030

We will ship (freight collect) to you products repaired or replaced under this Warranty.

Residential Limited Warranty

The warranty applies only to the original purchaser and installation of these products in residential applications. It does not apply to commercial applications.

Commercial Limited Warranty

The warranty applies only to the original purchaser and installation of these products in commercial applications,
