I Safety Precautions

Safety Alert Definitions

Throughout this guide are safety items labeled with a Danger, Warning or Caution based on the risk type:

DANGER

Danger means that failure to follow this safety statement will result in severe personal injury or death.

WARNING

Warning means that failure to follow this safety statement could result in serious personal injury or death.

CAUTION

Caution means that failure to follow this safety statement may result in minor or moderate personal injury, property or equipment damage.

2 Inspect & Plan

Items Included in Kit

- 10' Braided Water Line
- Ice Maker Adapter Kit
- Hose Washer (may be part of Adapter kit)

NOTICE

Not all items shipped in kit will be used. Please dispose of the pictured items. Also remove and dispose of brass compression nut and ferule from elbow.

3 Install Kit

Installation Procedure

1. Apply Teflon tape (not included) onto the threaded elbow brass fitting. Only apply Teflon tape to the smaller fitting on the brass elbow (as shown). The larger fitting on the elbow does not need tape.

2. Insert the elbow into the garden hose connector provided and tighten.
3. Insert washer into garden hose connector.
4. Tighten onto water valve.
5. Install braided connection onto the larger thread of the brass elbow.

CAUTION

DO NOT over tighten connections as damage to washer might occur.

6. Route braided line to water shut-off and connect.
7. Turn on water and check for leaks.

BUILDING ON THREE GENERATIONS OF INNOVATION

For over five decades and through three generations, U-Line continues to be the leader in innovation, quality and performance in the premium built-in undercounter ice making, refrigeration and wine preservation market. U-Line has captivated those with an appreciation for the finer things with exceptional functionality, style, inspired innovation and attention to even the smallest details. We are known and respected for our unwavering dedication to product design, quality and selection.

In 1962, Henry Uihlein founded U-Line Corporation as an outgrowth of Ben-Hur Freezer Company and was the first to develop and patent an automatic stand-alone undercounter residential ice maker. His foresight and determination to develop new ideas and to succeed when there were no clear guidelines or solutions are evident today. The newest Uihlein generation continues to build upon the family's innovative legacy at the Milwaukee, Wisconsin based business by providing continuity and vision from which new designs and technology continue to be born.

Today the complete U-Line product collection includes Ice Makers, Ice Machines, Wine Captain[®] Models, Combo[®] Models, Refrigerator / Freezers, Refrigerators, Drawer Models and Beverage Centers. The U-Line brand offers products in the 1000 Series, 2000 Series and the Modular 3000 Series. The 1000 Series offers a more targeted priced product with appropriate features, while the 2000 Series offers upscale features, advanced technology and specialized product families. Our Modular 3000 Series provides sleek design and versatile temperature settings with our U-Select[®] control. U-Line's approach to its breadth of products, multiple price points and features allows a choice and product that will fit any lifestyle.

DESIGNED, ENGINEERED AND ASSEMBLED IN WISCONSIN, USA
