

The VELUX logo is displayed in white, bold, sans-serif capital letters on a red rectangular background.

Skylights

A light blue circular callout containing white text.

Now factory
installed
blinds
available

A photograph of a bright, airy bedroom. Two skylights are installed in the white ceiling. A woman with blonde hair is sitting on a bed with a white coverlet, reading a magazine. To her left is a large window with white curtains and a glass door leading to a balcony. A bedside table with a lamp and a vase of white flowers is next to the bed. The walls are finished with light-colored horizontal shiplap.

Skylight reference guide

Residential, commercial and SUN TUNNEL™ skylights

Effective January 16, 2012

How to order

With VELUX, there are several choices, no matter how the house and roof are constructed. Before getting started and to help make the best possible choice for your application, read the following steps:

1. Plan for delivery time.

In the guide we have supplied a continental USA delivery guideline to help you in planning projects. Please use the chart below to know when to expect delivery.

Continental USA delivery guidelines	Delivery
In-stock at regional warehouses – Allow 2 to 4 business days for shipment.	S
Trans-shipped from central warehouse – Allow 7 to 10 business days for shipment.	T
Not stocked; Manufactured on demand – Allow approximately 15 business days for shipment.	R
Not stocked; Manufactured on demand – Allow approximately 32 business days for shipment.	N
Sparks, NV region ships 2 to 3 days, all other areas must call for availability	A
Sparks, NV and Broomfield, CO regions ship in 2 - 3 business days, for other areas allow 15 business days	B
Ronkonkoma, NY, Greenwood, SC, Aurora, IL, Windsor, CT regions ship in 2 to 3 business days, for other areas allow 7 - 10 days	C

2. Product ordering codes.

To order the correct product you will need a product order number that may consist of up to three separate parts. Skylights and roof windows will have three parts while accessories and flashing may have two parts. These parts are the Model number (A), Size code (B) and Product code (C) if required.

Tempered LowE3	Aluminum	2005R	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	C

Note: In general the Replacement FS, allows a finished opening variance of 2" on width and height for an ideal fit where the front of the drywall will be under the white skylight frame. An additional 2" in width and height variance will allow the skylight to fit the opening, but additional trim will be required.

Deck mounted skylight combi-flashing - EKL / EKW

- Must specify vertical gutter spacing when ordering. May be from 2½" to 12" in ½" increments. Combi-flashings with gutters 8" or wider have additional charges. Call for more Combi-flashing options.
- Type EKL works with groupings on low-profile roofing materials such as shingles and shakes.
- Type EKW works with groupings on high-profile roofing materials such as tile or corrugated metal roofing. Only 4" spacing is available.
- Many other combinations can be made beyond what is listed in the below chart. Call customer service for more information.
- Only the 2.5", 3", 3.5" and 4" gutters will be stocked; all other widths are special order only and carry a 15 day production time.

Custom size fixed curb mounted skylights - Custom FCM

Skylights available to fit curbs including flashing that have a maximum clearance dimension of 18 3/4" - 50 3/4" wide by 18 3/4" - 72" long with a 12 day production time plus transportation time.

We require maximum skylight clearance dimensions in 1/4" increments (0, 1/4, 1/2, 3/4) for width and height.

Note: Custom size flashing kits and custom size blinds are not available.

Please call for availability.

CM / CAP | Custom commercial skylights

Utilizing quality commercial skylights from VELUX is the best way to bring natural light into a commercial or industrial space. VELUX commercial skylights provide high levels of visible light transmittance and create inviting spaces. Each CM and CAP skylight is completely customizable with all of the options and features you would expect from the leader in skylights. Call 1-888-878-3589 for more information.

- Neutral gray color
- Acrylic glazings available in clear over clear, clear over white, white over clear, or bronze over clear*
- Polycarbonate glazing available.
- Curb heights of 4", 6", 9", 12" and 16" available on CAP models
- Termination trim available to ease installation on CAP models
- Wide range of OSHA compliant skylights available.
- Advanced weep system minimizes condensation
- Optional louvers in CAP models provides ventilation without opening

* Glass skylights are recommended for residential type applications.

Custom commercial sizes	
<p>Skylights available to fit custom sizes available up to 102" wide x 150" long with a 15 day production time including transportation time.</p> <p>VELUX requires outside curb dimensions for CMs and rough opening dimensions for CAPs.</p>	<p>CM</p> <p>CAP</p> <p>Outside curb dimension (including flashing)</p> <p>Rough opening dimension</p>

CMA | Commercial curb mounted skylights

Ordering a blind for a skylight

Blackout blinds

Blocks the light. Less than 2% of light enters the room. Provides the best privacy.

Light filtering blinds

Diffuses the light. Controls direct sunlight and glare. Provides basic privacy.

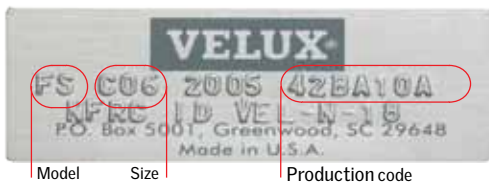

Venetian blinds

Adjusts the light. Reduces light by 74%. Adjust direct light in any direction. Maintain view to the outdoors.

Determine the model, size, and production code of your skylight.

Order a blind with the right order code. You will need to provide the **model code**, **size code** of the skylight, and **color code** of your blind.

Accessories

Programmable RF Remote (KLR 100 US)

The most advanced skylight remote on the market. It can operate skylights and blinds individually or as part of a group.

Advanced RF technology allows the user to operate skylights and blinds from within 30ft of skylight. Create programs to control the skylight and blind automatically based on time of day, day of the week, or month of the year.

Can set the skylight to close automatically after a certain period of time after opening.

⁵In-stock at regional warehouses – Allow 2 to 4 business days for shipment.

Non-dealer disclaimer

Any price shown do not include shipping and handling cost, delivery cost by your local VELUX Dealer or applicable sales tax. Final unit pricing can be 10 - 15%+ higher depending on your location, services provided and final delivery of the skylight to the job site. Many of the skylights do not include flashings or blinds. These can be purchased separately.

All VELUX skylights, roof windows, SUN TUNNEL™ skylights, flashing kits and blinds must be purchased through a qualified VELUX dealer. Please see the "Where To Buy" section of www.veluxusa.com website for a list of VELUX dealers near you.

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Miami-Dade glass, impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.
