GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for damp locations.

This product can be dimmed with a low-voltage electronic dimmer.

This instruction shows a typical installation.

CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

Install the Fixture

1A

1 Unscrew the mounting plate from the fixture base.

1B

2 Connect the black driver wire to the hot power line wire with a wire nut.

3 Connect the white driver wire to the neutral power line wire with a wire nut.

1C

4 Properly place the driver and wire connections into the electrical box.

5 Ground the mounting plate to a suitable ground in accordance with local electrical codes.

6 Secure the mounting plate to the electrical box with 2 #8-32 screws, leaving the low-voltage driver wires accessible.

- 7** Feed the transformer wires through the fixture base and tightly reinstall it onto the mounting plate.

- 8** Completely install the blue transformer wire to the negative terminal to make a connection.
- 9** Completely install the red transformer wire to the positive terminal to make a connection.

NOTE: Ensure that the transformer wires have been properly installed by gently tugging on the wire to ensure the connection is firm.

- 10** Place the diffuser into the fixture base and completely screw the shade into the base.
