

DARK SKY FRIENDLY LIGHTING

Effective outdoor lighting creates the right aesthetic while supporting safety and commerce. Because excessive artificial light – known as light pollution – can have environmental consequences, dark sky-friendly lighting was developed to minimize the harmful effects of light pollution on humans, wildlife and our climate. Key tenets of dark sky-friendly lighting include:

- Only light the area that needs it
- Be no brighter than necessary
- Minimize blue light emissions
- Be fully shielded (pointing downward)

Generation Lighting offers dark sky-friendly fixtures in multiple styles and finishes to suit a variety of outdoor applications.

BENEFITS OF DARK SKY LIGHTING:

- Increases safety by reducing glare for drivers and pedestrians
- Improves appearance of night sky – greater contrast between sky and stars
- Positive economic impact to surrounding communities

NEW! DARK SKY ADAPTER

Compatible with nearly 200 Generation Lighting SKUs, this adapter fits over the socket cup to limit the range of light emitted. It works best with products that feature a medium base, down pointing socket and open bottom; suggested minimum of 3" diameter and 4.75" height.

	Item Number	92255-15
	Dimensions	D: 3" H: 5"
	Finish	Black
	Material	Aluminum
	Location Rating	Wet
	In-Stock Timing	9/1/2020

List of compatible SKUs also available on Partners Insight. Contact customerservice@generationlighting.com with any questions.

Please Note: While these products are dark sky-compliant, they are not formally certified or endorsed by the International Dark-Sky Association. Not all SKUs within a given family are Dark Sky-Friendly. The full list of Dark Sky-Friendly SKUs can be found on Partners Insight.
