

The technical drawing illustrates a lighting fixture with the following dimensions and features:

- Front View:** Shows a central vertical pole with a total height of 83". The pole has a diameter of 1/2". The mounting bracket at the top has a width of 6" and a depth of 5 3/4". The distance from the ceiling to the top of the pole is 3 1/2". The distance from the top of the pole to the base of the mounting bracket is 16". The distance from the base of the mounting bracket to the top of the pole is 8". The distance from the top of the pole to the base of the mounting bracket is 16". The distance from the base of the mounting bracket to the top of the pole is 38 1/2". The base of the mounting bracket is 30" wide and 2 1/4" deep. The distance from the base of the mounting bracket to the top of the pole is 36 1/4". The distance from the base of the mounting bracket to the top of the pole is 3 3/8".
- Bottom View:** Shows a circular base with a diameter of 30". The base has a central mounting point with a diameter of 1/2". The base is divided into three equal sections by three radial lines.
- Detail View:** Shows a mounting bracket with a 30° Max angle.
