*Because Lighting Speaks Volumes*

## Description

Inspired by celestial beauty, this indoor wall sconce or wall mount is perfect for those looking to optimize illumination to the fullest. This piece contains an impressively wide elegant white alabaster semi-sphere resembling the moon's all-encompassing radiance. Alabaster glass features beautifully unique patterned swirls. Thick and durable, alabaster diffuses light evenly in all directions and minimizes harsh shadows for a pleasantly uniform glow. Filtered light subtly accentuates swirls, resulting in charming wispy highlights. These gorgeous swirls make this alabaster half-sphere one-of-a-kind. Glass is surrounded by a magnificently ringed, orbit-like frame. Delight in transitional design that complements surroundings and décor with the best of both modern and traditional elements. Rest assured your fixture is Americans with Disabilities Act compliant and provides adequate walkway and hallway accessibility. Distance from the wall to the front of the fixture meets ADA clearance regulations. Complements vanity, living rooms, hallways, restaurants, and many other indoor areas. Flawlessly and evenly finished in rich antique bronze. Choose heavenly brilliance with this captivating piece.
