Product Details

Description: Track current limiter, single live end. Designed for using WAC H, L, J&J2 series track. In addition it may fit other manufacturer's original track (consult factory for specific brands).

Materials: Galvanized steel mounting plate, mounted a track connector and a circuit breakers. And a plastic cover secure with two pin Torx head screws to the plate.

Systems: **THL-HLE** is designed for WAC H system track (HT).
TJL-JLE is designed for WAC J system track (JT).
TLL-LLE is designed for WAC L system track (LT).
TJL-J2LE is designed for WAC J2 system track (J2T).

Mounting: Mounts directly to a ceiling surface, or a 4" octagonal outlet box. Connects direct to WAC track units. Also suitable for mounting to grid ceiling runners and WAC stem mounted track.

Finish:	THL-HLE	TLL-LLE	TJL-JLE	TJL-J2LE

Listing: UL & CUL Listed. 5 years WAC Lighting product warranty.

Electrical Information

- ? Capacity is 120V, 60Hz rated.
- ? Switch is polarized, and must be installed in accordance with all national and local codes.
- ? Wire terminals for use with 12 or 14 AWG solid copper wires. Use minimum 90° supply wires.
- ? Circuit breaker can limit the amount of electrical load that can be placed on the circuit. Circuit breaker also can be used as standard ON/OFF switch.
- ? Rating:
 - 1A** – 1 Amp
 - 2A** – 2.5 Amp
 - 5A** – 5 Amp
 - 7A** – 7.5 Amp
 - 10A** – 10 Amp
- ? **Short Circuit Current Rating (AIC): 1kA**
