### MODEL # 6SEB-F PERFORMANCE DATA

#### FOR USE

- · Bathroom exhaust
- Dryer exhaust
- · Kitchen hood exhaust
- Fresh air make-up
- · Devices that require exterior exhaust or intake

#### MATERIALS

- · Constructed from high temperature plastic polymers.
- Material tested for use on high temperature appliance devices or components. (max sustainable operational temperature at 235°)
- ASTM E84 / UL723 flame spread rating,
- · All materials made and fully assembled in the USA

#### GENERAL INFORMATION

#### BENEFITS

- Prevents exterior air from entering interior area
- · Prevents mold & mildew\*
- Eliminates water intrusion\*\*
- Sold assembled
- · Single step installation
- Greatly reduces labor cost
- · Fits duct sizes up to 6" diameter
- · 100% non corrosive material
- Box cavity designed not to interfere with structural design

## FEATURES

- · Interior monolithic cavity, positive pitch sidewalls
- · Mounted flush with exterior building surface
- · Paintable, primer required
- Gravity back draft dampers
- Removable front louver for periodic maintenance and inspections
- Face louver is attached with four stainless steel screws
- Impact resistant
- UV stabilized
- · Available in White or Custom colors
