SECTION 1: Using these instructions

1.1 Using these instructions

Please refer to all safety and installation requirements detailed in the Quick start guide provided with the HydroTap Command Centre, and HydroTap Command Centre installation instructions found online, prior to installation of, or any change to, the complete system.
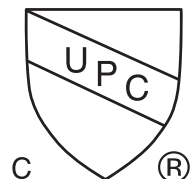

⚠️ **WARNING**	📖 **Read the instructions**	**Before commencing the installation,download & read the HydroTap Command Centre installation instructions**

SECTION 2: Performance data & regulatory standards

- The Wave XX, Classic XX, Classic Plus XX, and Elite Plus XX faucets have been certified by IAPMO R&T against NSF/ANSI Standard 42, NSF/ANSI Standard 53, NSF/ANSI Standard 372, CSA B483.1, ASSE 1087, and ASSE 1023 when used as part of the BCS60, BCS20, BCS Home, BC40, and BC Home systems.

-

- The Wave XX, Classic XX, Classic Plus XX, and Elite Plus XX faucets have been certified by IAPMO R&T against NSF/ANSI Standard 42, NSF/ANSI Standard 53, NSF/ANSI Standard 372, CSA B483.1, and ASSE 1087 when used as part of the CS100 and CS Home systems.

-

- XX = Chrome, Brushed Chrome, Matte Black, Rose Gold, Nickel, Brushed Nickel, Gunmetal Gray, Brushed Gold faucet finish options.

3.1 Tools needed for faucet installation

In addition to normal tools, the following (or equivalent equipment) will be required, (not supplied).

- 1 ⅜", (35mm) diameter sheet metal hole punch for sinks.
- 1 ⅜", (35mm) diameter hole saw for worktops.
- Tube spanner for fixing the tap assembly (supplied).

> ⚠️ **Be aware of the risks of hazards which could cause harm when using tools.**
> **Assess the risks before starting the installation.**

4.1 Positioning

- Position the faucet such that it dispenses into the sink bowl with clearance for a cup or tea pot.

- Observe 3.9",(100mm), 360º clearance envelope for Wave only.

- Wave will not operate in temperatures under 50ºF, (10ºC).

⚠️ **Ensure that faucets are positioned to minimise the risks of scalding by dispensing boiling water while using the tap.**

Wave clearance

Position Command Centre and faucet as close together as possible. See below.

4.6" (116mm)

4.9" (125mm)

8.9", (225mm) with extension

4.2 Cut the hole & fit the spacer

- Cut a 1 ⅜", (35mm) hole in the worktop / sink.

- Apply a light smearing of silicone sealant on the underside of the spacer to ensure a watertight fit.

Black plastic spacer

1 ⅜", (35mm)
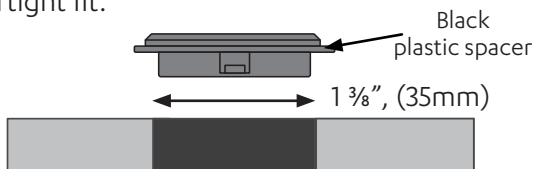

4.3 Mount the faucet

- Pass the tubes and USB cable through the 1 ⅜", (35mm) hole.

SECTION 5: Cleaning and maintenance

5. 1 Cleaning

- Wipe surfaces with a damp cloth and then wipe dry with a clean, dry cloth.

⚠️ **IMPORTANT!**

- Do not use air-drying disinfectant sprays.
- Do not use abrasives to clean the sensor lenses at the sides, top and rear of the Touch-Free Wave.
- This could cause permanent malfunction and void warranty.
