# HOSHIZAKI

HOSHIZAKI has built a legacy of quality design, reliability and customer commitment.

Our Commercial Series refrigeration line has features that combine cutting edge technology with durability and style.

**Superior  
refrigeration performance**

**Durable,  
sustainable construction**

**Simple  
operation and maintenance**

## COMMERCIAL SERIES | UPRIGHT REFRIGERATION KEY FEATURES

# HOSHIZAKI

COMMERCIAL SERIES | UPRIGHT REFRIGERATION  
**SUPERIOR REFRIGERATION PERFORMANCE**

HOSHIZAKI refrigeration is pure performance delivered. By creating the perfect combination of temperature and airflow for food storage - we keep your products fresh, nutritious, and safe.\*

## **Dynamic Airflow**

Exclusive design distributes cold air through a system of ducts and louvers positioned throughout the cabinet. Constant air movement circulates top to bottom and at each individual shelf level...surrounding food with perfect, uniform temperatures.

## **TXV - Thermostatic Expansion Valve**

Peak times or product overload can raise temperatures causing concern for food safety. HOSHIZAKI's TXV system quickly responds to demand and regulates refrigerant flow to control temperatures more effectively. Faster recovery equals food safe temperatures and energy efficient operation.

\*HOSHIZAKI is approved to NSF/ANSI 7 standards which covers the materials, design, construction and refrigeration performance requirements needed to store perishable food in a safe and sanitary manner in commercial food service locations.

# HOSHIZAKI

## COMMERCIAL SERIES | UPRIGHT REFRIGERATION **DYNAMIC AIRFLOW**

Constant air movement circulating top to bottom and at each individual shelf level, surrounds the food at just the right temperature.

# HOSHIZAKI

COMMERCIAL SERIES | UPRIGHT REFRIGERATION  
**DURABLE SUSTAINABLE CONSTRUCTION**

## **Stainless Steel Exterior**

Our stainless steel is superior to other materials because it's heavy duty, stain and chemical resistant and non-corrosive.

## **Stainless Steel Interior**

Both the interior cabinet and door liner are durable stainless steel. This tough and hygienic material creates a safer environment for commercial food storage - at the same time it's easy to clean and maintain.

**DURABLE SUSTAINABLE CONSTRUCTION**

## **Ergonomic Pressure Relief Valve**

One piece, full length handle and pressure relief valve make opening easy and doors can be conveniently reversed in the field with an optional door kit. Uprights come standard with locks.

## **Stepped Door Design**

Our seal saver design protects the gasket from protruding trays and pans. Plus, the snap-in channel makes it simple to remove the gasket for cleaning.

## **Industrial Shelving**

Heavy duty, epoxy coated wire shelving, stainless steel shelf supports sustain maximum loads – exceeding UL standards. Tray pan slides are optional and can accommodate two full size hotel pans or one baker pan. Shelves can be adjusted in 1 inch increments to utilize storage capacity. Three shelves per section come standard.

**DURABLE SUSTAINABLE CONSTRUCTION**

## **2 3/8" Insulated Walls**

Environmentally friendly foam insulation throughout the cabinet and doors provide an energy efficient storage compartment. Additional savings for your bottom line!

## **Convenient Door Operation**

Spring assisted self-closing doors are equipped with extra heavy duty 8 gauge hinge plates and a stay open feature at 90 degrees.

For total hands free operation try our optional foot pedal.

**DURABLE SUSTAINABLE CONSTRUCTION**

**Glass Door models: added visibility – same superior features**

Multi-pane glass doors offer the visibility you require while remaining energy efficient.

Glass doors feature argon and Low-E non-reflective coating - enhancing insulation with environmentally friendly materials.

**SIMPLE OPERATION AND MAINTENANCE**

## Roll-in Installation

Shipped with 4" stem casters (two with brakes) pre-installed on all two and three section models, they can be rolled through a standard door opening and set in place - saving you time and money.

## LED Digital Display

Solid state digital controls monitor the operation and performance of the refrigeration system. The controls also provide visual high and low temperature and high and low voltage alarms.

## ANSI, NSF, UL/ETL

Our products surpass the most stringent tests in the foodservice industry - our own! Each HOSHIZAKI refrigeration product must pass 24 quality performance test standards, is run tested on the line and approved by Quality Control before it can be sold.

HOSHIZAKI is an ENERGY STAR® Award winner since 2012.

- Partner of the year in 2013 & 2014
- Sustained Excellence Award winner in 2015 & 2016
