

## Tub and Shower

TRIM ONLY for Tub and Single shower

Unit Requires separate order of R10000-UNWS

Rough-in

**Model No: T13H252-25**

### COMPLIES WITH:

- ASME A112.18.1 / CSA B125.1
- Pressure Balance Valve ASSE 1016
-  Indicates compliance to ICC/ANSI A117.1
- Pressure Balance lever handle ADA compliant to ICC/ANSI A117.1/ADA
- Handshower backflow protection provided by two integral certified check valves in series, which operate independently, ASME A112.18.3  
Handshower ADA compliant to ICC/ANSI A117.1/ADA
- (Contact Delta Representative for State and/or Local Approvals)

### SPECIFICATION:

- Polished chrome plated finish - Pressure Balance cartridge - Temperature only controlled with handle - Field adjustable to limit handle rotation into hot water zone
- Integral checks in the cartridge prevent crossflow between Hot and Cold water inlets
- Non-Removable Blue/Red visual cover indicator for Cold, Mixing and Hot handle positions
- Spout: - 1/2" IPS metal spout with pull up diverter
- Handle#: 2 - Metal Lever Handle – ADA compliant - 85mm (3.33")
- Optional 1753 mm (69") Long Chrome plated Brass Double Spiral Hose (replaces standard hose)
- #5 Shower - Handshower with standard 24" (610mm) Stainless Steel Slide Bar
- #5 Shower MAX: 1.5 GPM @ 80 PSI (5.7 L/min @ 552 kPa)
- #5 Shower MIN: 1.13 GPM @ 45 PSI (4.3 L/min @ 310 kPa)
- Optional 914mm(36") stainless steel slide bar to replace standard bar

### OPERATION:

- **NOTE FOR SHOWER #6: Not for use as anti-ligature device.**
- PAUSE WARNING – FOR #5 Shower (handshower) and OPTIONAL Handshower #2

Plumbing Codes require that showerheads and handshowers provide a small but continuous flow of water (trickle) when in "PAUSE" mode. Because of this continuous flow, in certain circumstances pressure variations in the water line and/or changes in the position of the shower temperature control handle while in "PAUSE" mode could result in dramatic changes to the temperature of the water when the shower head or hand shower is returned to the "ON" position.

ALWAYS point the shower head away from yourself when returning to the "ON" position and feel the water with your hand before resuming your shower to ensure the water flow is not too hot or too cold.

DO NOT allow children or others who might not understand this warning to use the "PAUSE" function.
