GALAXY™

TOUCHLESS AUTOMATIC HAND DRYERS

The Natural Choice

GALAXY™ with ABS Housing

Make an environmentally sound decision to save trees and energy, while putting an end to the paper towel mess in your washrooms.

Galaxy™ Hand Dryers make good business sense and pay for themselves usually in a period of a few months. Eliminate the cost of purchasing and restocking paper towels and reduce your waste removal costs.

Built by Stiebel Eltron, a world leading manufacturer of technically superior products, Galaxy™ embodies a proud tradition of quality and workmanship that delivers maximum value, efficiency and reliability.

Stiebel Eltron's Galaxy™ has all the features you expect in a great hand dryer:

- Rugged Construction
- Touchless Operation
- Fast Drying Power
- Quiet: only 54 decibels
- Trouble Free Operation
- Elegant Design
- Easy Installation
- Industry Leading Warranty

We invite you to take a step into the next generation of contemporary styled hand dryers. Galaxy™...the Natural Choice.

Touchless Operation.

An infrared type proximity sensor turns the unit on and off automatically. Place your hands underneath the unit, and the blower and heating elements are activated. Take your hands away, and the dryer stops running, minimizing the use of electricity. This saves energy and operating costs !

Fast Drying.

A careful selection of air temperature and air speed dries hands quickly every time ! Depending upon individual preferences, drying time is within 20-30 seconds.

Elegant Design.

It is often described as sophisticated, and a complement to any restroom environment. Choose from three standard colors. Its contemporary rounded shaped housing prevents objects from being placed on the unit and damaging its surface.

Made in the USA

CERTIFIED**

STIEBEL ELTRON

Rugged Construction.

Stiebel Eltron offers two product categories:

The Galaxy™ features a durable, ABS polycarbonate housing with a wall thickness of 1/8" (3mm). This is the ideal choice for light to medium traffic areas. The only color choice available is white.

The Galaxy™M features a housing of rugged cast aluminum alloy with a wall thickness of 1/8" (3mm). The Galaxy™M is available in three attractive standard colors that complement any washroom environment. Its rugged metal housing makes this dryer the perfect choice for high traffic areas.

Quiet, Trouble Free Operation.

With a noise level of only 54 DB, the Galaxy™ is one of the quietest hand dryers on the market. The brushless motor design yields a long service life. Galaxy™ is backed by an industry leading warranty stating it will be free from defects in workmanship and material for a period of FIVE YEARS.

Easy Installation.

To install the Galaxy™ M hand dryer, simply loosen one tamper-proof screw*, pull down the locking mechanism and remove the front cover. Bring the wire through the knock-out in the back of the unit. Mount the unit to the wall with four fasteners and connect the wire to the wiring block.

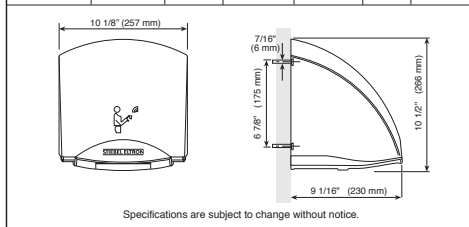

*(Three tamper-proof screws in the case of the Galaxy™ with plastic housing.)

GALAXY™ M with cast aluminum housing

Touchless Hand Dryers Save You Money!

GALAXY™

Enjoy clean and hygienically appealing restrooms at a fraction of the cost incurred by paper towels. Superior performance and a competitive value makes Galaxy™ the Natural Choice for hand drying.

Galaxy™ No Touch hand dryers help you maintain neat restrooms at minimal costs. As the following chart shows, you can eliminate 97% of the recurring costs associated with paper towels by switching to Stiebel Eltron Galaxy™ hand dryers. High quality construction and automatic operation on all models combined with a very competitive purchase price makes Galaxy™ the most economical hand drying system available today.

Paper Towels
Cost per 100 hand dries,
using two towels per dry
\$3.34

C-fold Paper Towels costs,	Cost per 100 Hand Dries per 2400 towel carton using two towels per dry.
\$32.00	\$2.67
\$36.00	\$3.00
\$40.00	\$3.34
\$44.00	\$3.67
\$48.00	\$4.00

STIEBEL ELTRON

Galaxy™ Hand Dryer
Cost per 100 hand dries
30 seconds per dry

7¢

Best Value

electricity cost per kWh	Cost per 100 Hand Dries, 30 seconds per dry
\$0.05	\$0.04
\$0.07	\$0.06
\$0.09	\$0.07
\$0.11	\$0.09
\$0.13	\$0.11

When making the above comparison, some cost factors in connection with paper towels were not taken into account since they are hard to quantify. However, these additional costs tip the scale even more in favor of Galaxy™ hand dryers.

- labor costs involved in purchasing and restocking paper towel holders
- labor costs due to having to check paper towel holders periodically
- added trash removal costs due to paper towel waste
- clean-up of paper towel litter on floors and in toilet bowls

All these added costs are eliminated after making the small initial investment in Stiebel Eltron Galaxy™ hand dryers.
