

INSTALLATION INSTRUCTIONS

Model # 9920-PL

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

1. Shut off power at the circuit breaker and remove old fixture including mounting hardware.
2. Carefully unpack your new fixture and lay out all the parts in a clear area. Take care not to misplace any small parts necessary for installation.
3. Pull black and white wires out of electrical outlet box (A).
4. Attach Single Bar (B) using Outlet Box Screws (C) to the outlet box (A). (Fig 1)
5. Connect the electrical wires as shown in Fig.2. Making sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's Ground wire to it. Otherwise, connect the fixture's Ground wire directly to the single bar using the Green Screw (D) provided.
6. To prevent moisture from entering the outlet box (A) and causing a short, use clear silicone Sealant to outline the outside of fixture back plate (G) where it meets the wall leaving a space at bottom to allow moisture a means to escape.
7. Place the back plate (G) into nipple (E) and secure it tightly against the wall using cap nut (F)(Fig 1).
8. Install 1*13W/GU24/PL bulb (one bulb included) in accordance with the fixture specification. **—DO NOT EXCEED THE MAXIMUM WATTAGE RATING! (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)**
9. The ballast in each of these models can be replaced by a qualified electrician without cutting of wires and without damage to the housing, trim, decorative elements or carpentry to which the fixture is attached. See Fig.3 for more detail.
10. This fixture is ETL Listed for Wet Location applications.
11. Contains Mercury (HG) Dispose of according to Local, State and Federal Law. (www.epa.gov/bulbrecycling).
